

CDC25C Antibody
Mouse Monoclonal Antibody (Mab)
Catalog # AM1908b**Specification**

CDC25C Antibody - Product Information

Application	WB,E
Primary Accession	P30307
Other Accession	NP_001781.2 , NP_073720.1
Reactivity	Human
Host	Mouse
Clonality	Monoclonal
Isotype	IgG1,k
Calculated MW	53365

CDC25C Antibody - Additional Information**Gene ID** 995**Other Names**

M-phase inducer phosphatase 3, Dual specificity phosphatase Cdc25C, CDC25C

Target/Specificity

This CDC25C monoclonal antibody is generated from mouse immunized with CDC25C recombinant protein.

Dilution

WB~~1:100

Format

Purified monoclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein G column, followed by dialysis against PBS.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

CDC25C Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

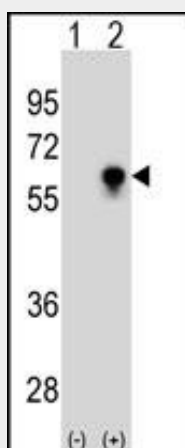

CDC25C Antibody - Protein Information**Name** CDC25C

Function Functions as a dosage-dependent inducer in mitotic control. Tyrosine protein phosphatase required for progression of the cell cycle (PubMed:[8119945](#)). When phosphorylated, highly effective in activating G2 cells into prophase (PubMed:[8119945](#)). Directly dephosphorylates CDK1 and activates its kinase activity (PubMed:[8119945](#)).

CDC25C Antibody - Images

Western blot analysis of CDC25C (arrow) using CDC25C Antibody (Cat. #AM1908b). 293 cell lysates (2 µg/lane) either nontransfected (Lane 1) or transiently transfected (Lane 2) with the CDC25C gene.

CDC25C Antibody - Background

This gene is highly conserved during evolution and it plays a key role in the regulation of cell division. The encoded protein is a tyrosine phosphatase and belongs to the Cdc25 phosphatase family. It directs dephosphorylation of cyclin B-bound CDC2 and triggers entry into mitosis. It is also thought to suppress p53-induced growth arrest. Multiple alternatively spliced transcript variants of this gene have been described, however, the full-length nature of many of them is not known. [provided by RefSeq].
