

PSD-95 Antibody

Affinity purified rabbit polyclonal antibody Catalog # AN1092

Specification

PSD-95 Antibody - Product Information

Application WB
Primary Accession P31016
Reactivity Rat

Predicted Bovine, Human, Mouse, Monkey, Zebrafish

Host Rabbit
Clonality polyclonal
Calculated MW 95 KDa

PSD-95 Antibody - Additional Information

Gene ID 29495
Gene Name DLG4

Other Names

Disks large homolog 4, Postsynaptic density protein 95, PSD-95, Synapse-associated protein 90, SAP-90, SAP90, Dlg4, Dlgh4, Psd95

Target/Specificity

Synthetic peptide corresponding to amino acid residues from the N-terminal region conjugated to KLH.

Dilution

WB~~ 1:1000

Format

Prepared from rabbit serum by affinity purification via chromatography on an affinity column made with the N-terminal peptide used as antigen.

Antibody Specificity

Specific for ~95k PSD-95 protein

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

PSD-95 Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

Shipping

Blue Ice

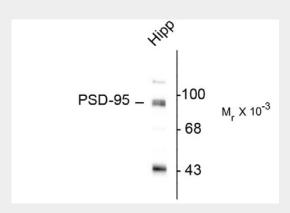

PSD-95 Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- <u>Immunohistochemistry</u>
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- Cell Culture

PSD-95 Antibody - Images

Western blot of rat hippocampal (Hipp) lysate showing specific immunolabeling of the \sim 95k PSD-95 protein.

PSD-95 Antibody - Background

PSD-95 is a very prominent component of the postsynaptic densities of synapses. It contains three PDZ domains which play key roles in its interactions with other proteins in the synapse. It has been proposed that these PDZ domains organize glutamate receptors and their associated signaling proteins and determine the size and strength of synapses (Kim and Sheng, 2004). Recent work suggests that interaction of the NMDAR with PSD-95 via these PDZ domains can be regulated by phosphorylation (Chung et al., 2004).
