

OR6N2 Antibody (C-term) Blocking peptide

Synthetic peptide Catalog # BP12693b

Specification

OR6N2 Antibody (C-term) Blocking peptide - Product Information

Primary Accession

<u>Q8NGY6</u>

OR6N2 Antibody (C-term) Blocking peptide - Additional Information

Gene ID 81442

Other Names Olfactory receptor 6N2, Olfactory receptor OR1-23, OR6N2

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions This product is for research use only. Not for use in diagnostic or therapeutic procedures.

OR6N2 Antibody (C-term) Blocking peptide - Protein Information

Name OR6N2

Function Odorant receptor.

Cellular Location Cell membrane; Multi-pass membrane protein.

OR6N2 Antibody (C-term) Blocking peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

OR6N2 Antibody (C-term) Blocking peptide - Background

Olfactory receptors interact with odorant molecules in thenose, to initiate a neuronal response that triggers the perception of a smell. The olfactory receptor proteins are members of a largefamily of

G-protein-coupled receptors (GPCR) arising from singlecoding-exon genes. Olfactory receptors share a 7-transmembranedomain structure with many neurotransmitter and hormone receptorsand are responsible for the recognition and G protein-mediatedtransduction of odorant signals. The olfactory receptor gene familyis the largest in the genome. The nomenclature assigned to theolfactory receptor genes and proteins for this organism isindependent of other organisms.
