

CTSR3 Antibody (C-term) Blocking peptide
Synthetic peptide
Catalog # BP13012b**Specification**

CTSR3 Antibody (C-term) Blocking peptide - Product Information

Primary Accession [Q86XQ3](#)

CTSR3 Antibody (C-term) Blocking peptide - Additional Information

Gene ID 347732

Other Names

Cation channel sperm-associated protein 3, CatSper3, Ca(v)-like protein, One-repeat calcium channel-like protein, CATSPER3

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

CTSR3 Antibody (C-term) Blocking peptide - Protein Information

Name CATSPER3

Function

Voltage-gated calcium channel that plays a central role in calcium-dependent physiological responses essential for successful fertilization, such as sperm hyperactivation, acrosome reaction and chemotaxis towards the oocyte.

Cellular Location

Cell projection, cilium, flagellum membrane {ECO:0000250|UniProtKB:Q80W99}; Multi-pass membrane protein {ECO:0000250|UniProtKB:Q80W99}

Tissue Location

Testis-specific.

CTSR3 Antibody (C-term) Blocking peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

CTSR3 Antibody (C-term) Blocking peptide - Images

CTSR3 Antibody (C-term) Blocking peptide - Background

Voltage-gated calcium channel that plays a central role in sperm cell hyperactivation. Controls calcium entry to mediate the hyperactivated motility, a step needed for sperm motility which is essential late in the preparation of sperm for fertilization. Activated by intracellular alkalinization (By similarity).
