

**PGAM4 Antibody (N-term) Blocking peptide**  
**Synthetic peptide**  
**Catalog # BP13349a****Specification**

---

**PGAM4 Antibody (N-term) Blocking peptide - Product Information**Primary Accession [Q8N0Y7](#)**PGAM4 Antibody (N-term) Blocking peptide - Additional Information****Gene ID** 441531**Other Names**

Probable phosphoglycerate mutase 4, PGAM4, PGAM3

**Target/Specificity**

The synthetic peptide sequence used to generate the antibody AP13349a was selected from the N-term region of PGAM4. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

**Format**

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

**Storage**

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

**Precautions**

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

**PGAM4 Antibody (N-term) Blocking peptide - Protein Information****Name** PGAM4**Synonyms** PGAM3**PGAM4 Antibody (N-term) Blocking peptide - Protocols**

Provided below are standard protocols that you may find useful for product applications.

**PGAM4 Antibody (N-term) Blocking peptide - Images****PGAM4 Antibody (N-term) Blocking peptide - Background**

This intronless gene appears to have arisen from a retrotransposition event, yet it is thought to be

an expressed, protein-coding gene. The encoded protein is a member of the phosphoglycerate mutase family, a set of enzymes that catalyze the transfer of a phosphate group from 3-phosphoglycerate to 2-phosphoglycerate.
