

C13orf3 Antibody (Center) Blocking Peptide

Synthetic peptide Catalog # BP8979c

Specification

C13orf3 Antibody (Center) Blocking Peptide - Product Information

Primary Accession

Q8IX90

C13orf3 Antibody (Center) Blocking Peptide - Additional Information

Gene ID 221150

Other Names

Spindle and kinetochore-associated protein 3, SKA3, C13orf3, RAMA1

Target/Specificity

The synthetic peptide sequence used to generate the antibody AP8979c was selected from the Center region of human C13orf3. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

C13orf3 Antibody (Center) Blocking Peptide - Protein Information

Name SKA3

Synonyms C13orf3, RAMA1

Function

Component of the SKA1 complex, a microtubule-binding subcomplex of the outer kinetochore that is essential for proper chromosome segregation (PubMed:19289083, PubMed:19360002, PubMed:23085020). The SKA1 complex is a direct component of the kinetochore-microtubule interface and directly associates with microtubules as oligomeric assemblies (PubMed:19289083, PubMed:19360002). The complex facilitates the processive movement of microspheres along a microtubule in a

depolymerization-coupled manner (PubMed:19289083). In the complex, it mediates the microtubule- stimulated oligomerization (PubMed:19289083). Affinity for microtubules is synergistically enhanced in the presence of the ndc-80 complex and may allow the ndc-80 complex to track depolymerizing microtubules (PubMed:23085020).

Cellular Location

Cytoplasm, cytoskeleton, spindle. Chromosome, centromere, kinetochore Note=Localizes to the outer kinetochore and spindle microtubules during mitosis in a NDC80 complex-dependent manner

C13orf3 Antibody (Center) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.
