

CARD6 Antibody (Center) Blocking Peptide
Synthetic peptide
Catalog # BP9043c**Specification**

CARD6 Antibody (Center) Blocking Peptide - Product Information

Primary Accession [Q9BX69](#)

CARD6 Antibody (Center) Blocking Peptide - Additional Information

Gene ID 84674

Other Names

Caspase recruitment domain-containing protein 6, CARD6

Target/Specificity

The synthetic peptide sequence used to generate the antibody [AP9043c](/products/AP9043c) was selected from the Center region of human CARD6. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

CARD6 Antibody (Center) Blocking Peptide - Protein Information

Name CARD6

Function

May be involved in apoptosis.

CARD6 Antibody (Center) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

CARD6 Antibody (Center) Blocking Peptide - Images**CARD6 Antibody (Center) Blocking Peptide - Background**

CARD6 is a protein that contains a caspase recruitment domain (CARD), an antiparallel six-helical bundle that mediates homotypic protein-protein interactions. The encoded protein is a microtubule-associated protein that has been shown to interact with receptor-interacting protein kinases and positively modulate signal transduction pathways converging on activation of the inducible transcription factor NF- κ B.
