

## Anti-Human MIP-1ß Antibody

Catalog # ABG10405

## Specification

## Anti-Human MIP-1ß Antibody - Product Information

Application WB, IHC, E
Reactivity Human
Host Rabbit
Clonality Polyclonal

## Anti-Human MIP-1ß Antibody - Additional Information

#### **Preparation**

Produced from sera of rabbits pre-immunized with highly pure recombinant Human MIP-1 $\beta$ . Anti-Human MIP-1 $\beta$  specific antibody was purified by affinity chromatography employing immobilized Human MIP-1 $\beta$  matrix.

#### WesternBlot

To detect Human MIP-1 $\beta$  by Western Blot analysis this antibody can be used at a concentration of 0.1-0.2  $\mu$ g/ml. When used in conjunction with compatible secondary reagents, the detection limit for recombinant Human MIP-1 $\beta$  is 1.5-3.0 ng/lane, under either reducing or non-reducing conditions.

#### Sandwich

To detect Human MIP-1 $\beta$  by sandwich ELISA (using 100  $\mu$ l/well antibody solution) a concentration of 0.5 - 2.0  $\mu$ g/ml of this antibody is required. This antigen affinity purified antibody, in conjunction with BioGems' Biotinylated Anti-Human MIP-1 $\beta$  (60-225BT) as a detection antibody, allows the detection of at least 0.2 - 0.4 ng/well of recombinant Human MIP-1 $\beta$ .

#### **Immunohistochemistry**

This antibody stained formalin-fixed, paraffin-embedded sections of human pancreas adenocarcinoma. The recommended concentration is 1.0 mg/ml with 2 hour incubation at room temperature. An HRP-labeled polymer detection system was used with a DAB chromogen. Heat induced antigen retrieval with a pH 6.0 sodium citrate buffer is recommended. Optimal concentrations and conditions may vary.

### **Neutralization**

To yield one-half maximal inhibition [<strong>ND</strong><span style="font-size: 16px;"><sub>>50</sub></span>] of the biological activity of Human MIP- $1\beta$  (50.00 ng/ml), a concentration of 1.75-3.00 µg/ml of this antibody is required.

### **Formulation**

A sterile filtered antibody solution was lyophilized from PBS, pH 7.2.

## Reconstitution

Centrifuge vial prior to opening. Reconstitute in sterile water to a concentration of 0.1-1.0 mg/ml.

#### **Storage**

-20°C

Tel: 858.875.1900 Fax: 858.875.1999

## **Precautions**

Anti-Human MIP-1ß Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

# Anti-Human MIP-1 Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- <u>Immunohistochemistry</u>
- <u>Immunofluorescence</u>
- <u>Immunoprecipitation</u>
- Flow Cytomety
- Cell Culture
