

## **Anti-Human Oncostatin M Antibody**

Catalog # ABG10449

## Specification

## **Anti-Human Oncostatin M Antibody - Product Information**

Application WB, IHC, E
Reactivity Human
Host Rabbit
Clonality Polyclonal

### **Anti-Human Oncostatin M Antibody - Additional Information**

#### **Preparation**

Produced from sera of rabbits pre-immunized with highly pure (>98%) recombinant hOncostatin M. Anti-Human Oncostatin M specific antibody was purified by affinity chromatography employing immobilized hOncostatin M matrix.

#### WesternBlot

To detect hOncostatin M by Western Blot analysis this antibody can be used at a concentration of 0.1 -  $0.2~\mu g/ml$ . Used in conjunction with compatible secondary reagents the detection limit for recombinant hOncostatin M is 1.5 - 3.0~ng/lane, under either reducing or non-reducing conditions.

#### Sandwich

To detect hOncostatin M by sandwich ELISA (using 100  $\mu$ l/well antibody solution) a concentration of 0.5 - 2.0  $\mu$ g/ml of this antibody is required. This antigen affinity purified antibody, in conjunction with BioGems' Biotinylated Anti-Human Oncostatin M (60-254BT) as a detection antibody, allows the detection of at least 0.2 - 0.4 ng/well of recombinant hOncostatin M.

### **Immunohistochemistry**

This antibody stained formalin-fixed, paraffin-embedded sections of human breast malignant ductal adenocarcinoma. The recommended concentration is 0.5mg/ml with an overnight incubation at 4°C. An HRP-labeled polymer detection system was used with a DAB chromogen and a proteinase K antigen retrieval. Optimal concentrations and conditions may vary.

#### Neutralization

To yield one-half maximal inhibition [<strong>ND</strong><span style="font-size: 16px;"><sub>50</sub></span>] of the biological activity of hOncostatin M (10 ng/ml), a concentration of 0.10 - 0.175 µg/ml of this antibody is required.

#### **Formulation**

A sterile filtered antibody solution was lyophilized from PBS, pH 7.2.

#### Reconstitution

Centrifuge vial prior to opening. Reconstitute in sterile water to a concentration of 0.1-1.0 mg/ml.

## **Storage**

-20°C

#### **Precautions**

Anti-Human Oncostatin M Antibody is for research use only and not for use in diagnostic or

therapeutic procedures.

# **Anti-Human Oncostatin M Antibody - Protocols**

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- <u>Immunohistochemistry</u>
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- Cell Culture

**Anti-Human Oncostatin M Antibody - Images**
