## Anti-p73 Picoband Antibody

Catalog \# ABO11926

## Specification

## Anti-p73 Picoband Antibody - Product Information

## Application

Primary Accession
Host
Reactivity
Clonality
Format

WB, IHC
015350
Rablit
Human, Mouse, Rat
Polyclonal
Lyophilized

Description
Rabbit IgG polyclonal antibody for Tumor protein p 73 (TP73) detection. Tested with WB, IHC-P in Human;Mouse;Rat.

## Reconstitution

Add 0.2 ml of distilled water will yield a concentration of $500 \mathrm{ug} / \mathrm{ml}$.

## Anti-p73 Picoband Antibody - Additional Information

Gene ID 7161
Other Names
Tumor protein p73, p53-like transcription factor, p53-related protein, TP73, P73
Calculated MW
69623 MW KDa

## Application Details

Immunohistochemistry(Paraffin-embedded Section), 0.5-1 $\mu \mathrm{g} / \mathrm{ml}$, Human, Mouse, Rat, By Heat<br>Western blot, 0.1-0.5 $\mu \mathrm{g} / \mathrm{ml}$, Human<br>

Subcellular Localization
Nucleus. Cytoplasm. Accumulates in the nucleus in response to DNA damage.

## Tissue Specificity

Expressed in striatal neurons of patients with Huntington disease (at protein level). Brain, kidney, placenta, colon, heart, liver, spleen, skeletal muscle, prostate, thymus and pancreas. Highly expressed in fetal tissue. .

## Protein Name

Tumor protein p73

## Contents

Each vial contains 5 mg BSA, $0.9 \mathrm{mg} \mathrm{NaCl}, 0.2 \mathrm{mg}$ Na2HPO4, 0.05 mg NaN3.

## Immunogen

E.coli-derived human p73 recombinant protein (Position: M1-E198). Human p73 shares 96\% amino acid (aa) sequence identity with mouse p73.

## Purification

Immunogen affinity purified.
Cross Reactivity
No cross reactivity with other proteins
Storage
At $-20^{\circ} \mathrm{C}$ for one year. After $r^{\circ}$ Constitution, at $4^{\circ} \mathrm{C}$ for one month. It ${ }^{\circ} \mathrm{Can}$ also be aliquotted and stored frozen at $-20^{\circ} \mathrm{C}$ for a longer time. Avoid repeated freezing and thawing.

## Sequence Similarities

Belongs to the p53 family.

## Anti-p73 Picoband Antibody - Protein Information

## Name TP73

## Synonyms P73

## Function

Participates in the apoptotic response to DNA damage. Isoforms containing the transactivation domain are pro-apoptotic, isoforms lacking the domain are anti-apoptotic and block the function of p53 and transactivating p73 isoforms. May be a tumor suppressor protein. Is an activator of FOXJ1 expression (By similarity). It is an essential factor for the positive regulation of lung ciliated cell differentiation (PubMed:<a href="http://www.uniprot.org/citations/34077761" target="_blank">34077761</a>).

## Cellular Location

Nucleus. Cytoplasm. Note=Accumulates in the nucleus in response to DNA damage

## Tissue Location

Expressed in striatal neurons of patients with Huntington disease (at protein level). Brain, kidney, placenta, colon, heart, liver, spleen, skeletal muscle, prostate, thymus and pancreas Highly expressed in fetal tissue. Expressed in the respiratory epithelium (PubMed:34077761).

## Anti-p73 Picoband Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- Cell Culture

## Anti-p73 Picoband Antibody - Background

p73, also known as tumor protein 73(TP73), encodes a member of the p53 family of transcription factors involved in cellular responses to stress and development. It is mapped to a region on chromosome 1p36 that is frequently deleted in neuroblastoma and other tumors, and thought to contain multiple tumor suppressor genes. The demonstration that this gene is monoallelically expressed (likely from the maternal allele), supports the notion that it is a candidate gene for neuroblastoma. Furthermore, recent finding are suggesting that over-expression of transcription factors involved in cell cycle regulation and synthesis of DNA in mammalian cells (e.g.: E2F-1) induces the expression of p73. In addition, p73 is a substrate of the c-Abl kinase and that the ability of c-Abl to phosphorylate p73 is markedly increased by gamma-irradiation.
