

BFP Antibody
Rabbit Polyclonal Antibody
Catalog # ABV11093**Specification**

BFP Antibody - Product Information

Application	WB
Other Accession	ABL11460
Reactivity	All Species
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG

BFP Antibody - Additional Information

Application & Usage	Western blot analysis (0.5-4 µg/ml). Recombinant BFP and immunofluorescence. However, the optimal conditions should be determined individually.
---------------------	---

Other Names
Blue Fluorescent Protein

Target/Specificity
BFP

Antibody Form
Liquid

Appearance
Colorless liquid

Formulation
100 µg (0.5 mg/ml) affinity purified rabbit polyclonal antibody in phosphate buffered saline (PBS),
pH 7.2, containing 30% glycerol and 0.01% thimerosal.

Handling
The antibody solution should be gently mixed before use.

Reconstitution & Storage
-20 °C

Background Descriptions

Precautions
BFP Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

BFP Antibody - Protein Information

BFP Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)

BFP Antibody - Images

Western blot analysis with recombinant BFP. Lane 1: 250 ng; Lane 2: 1 μ g

BFP Antibody - Background

The Blue Fluorescent Protein (BFP) can be used as protein marker to study subcellular localization or translocation of proteins.
