

Fluorescent Protein Antibody Set
Rabbit Polyclonal Antibody
Catalog # ABV11490**Specification**

Fluorescent Protein Antibody Set - Product Information

Application	WB, IF, IP
Reactivity	All Species
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG

Fluorescent Protein Antibody Set - Additional Information

Application & Usage	Antibodies can be used for Western blot (0.5-4 µg/ml), Immunoprecipitation (10-20 µg/ml), and Immunofluorescence.
---------------------	---

Target/Specificity
EGFP,BFP,CFP,dsRED,mCherry,YFP

Antibody Form
Liquid

Appearance
Colorless liquid

Formulation
100 µg of each of the affinity purified antibody in phosphate buffered saline (PBS), pH 7.2, containing 30% glycerol, 0.5% BSA and 0.01% thimerosal.

Handling
The antibody solution should be gently mixed before use.

Reconstitution & Storage
-20 °C

Background Descriptions

Precautions
Fluorescent Protein Antibody Set is for research use only and not for use in diagnostic or therapeutic procedures.

Fluorescent Protein Antibody Set - Protein Information**Fluorescent Protein Antibody Set - Protocols**

Provided below are standard protocols that you may find useful for product applications.
