

TPO Antibody
Purified Rabbit Polyclonal Antibody
Catalog # ABV11589**Specification**

TPO Antibody - Product Information

| | |
|-------------------|------------------------|
| Application | WB |
| Primary Accession | P40225 |
| Reactivity | Human |
| Host | Rabbit |
| Clonality | Polyclonal |
| Isotype | Rabbit IgG |
| Calculated MW | 37823 |

TPO Antibody - Additional Information**Gene ID** 7066**Other Names**

thrombopoietin, MPL, MPL ligand, Megakaryocyte growth and development factor, MGDF

Target/Specificity

TPO

Formulation

100 µg (0.5 mg/ml) affinity purified rabbit anti-human TPO polyclonal antibody in phosphate buffered saline (PBS), pH 7.2, containing 30% glycerol, 0.5% BSA, 0.01% thimerosal.

Handling

The antibody solution should be gently mixed before use.

Background Descriptions**Precautions**

TPO Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

TPO Antibody - Protein Information**Name** THPO**Synonyms** MGDF**Function**

Lineage-specific cytokine affecting the proliferation and maturation of megakaryocytes from their committed progenitor cells. It acts at a late stage of megakaryocyte development. It may be the major physiological regulator of circulating platelets.

Cellular Location
Secreted.

TPO Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

TPO Antibody - Background

TPO (Thrombopoietin, also known as Mpl-ligand, MGDF) stimulates the proliferation and maturation of megakaryocytes and promotes increased circulating levels of platelets in vivo.
