

Human IgG1, κ Isotype Control Antibody
Catalog # ABV11794**Specification**

Human IgG1, κ Isotype Control Antibody - Product Information

Application	WB, FC
Reactivity	Human
Host	Recombinant
Clonality	Monoclonal
Isotype	Human IgG1, kappa

Human IgG1, κ Isotype Control Antibody - Additional Information**Appearance**

Colorless liquid

Formulation

200 μ g affinity purified human antibody in phosphate-buffered saline (PBS) containing 0.02% Proclin 300

Reconstitution & Storage

-20 °C

Background Descriptions**Precautions**

Human IgG1, κ Isotype Control Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

Human IgG1, κ Isotype Control Antibody - Protein Information**Human IgG1, κ Isotype Control Antibody - Protocols**

Provided below are standard protocols that you may find useful for product applications.

Human IgG1, κ Isotype Control Antibody - Background

Recombinant monoclonal antibody to Unknown Specificity (Isotype control). Manufactured using Recombinant technology with variable regions (i.e. specificity) from the hybridoma MOPC-21. This is a chimeric antibody created as part of a panel offering antibodies of the same specificity in different formats (species, isotype, subtype and modified versions) for use as isotype controls.
