

**RRM1**  
**Rabbit Monoclonal antibody(Mab)**  
**Catalog # AD80112****Specification**

---

**RRM1 - Product info**

|                   |                        |
|-------------------|------------------------|
| Application       | <b>IHC-P</b>           |
| Primary Accession | <a href="#">P23921</a> |
| Reactivity        | <b>Human</b>           |
| Host              | <b>Rabbit</b>          |
| Clonality         | <b>Monoclonal</b>      |
| Calculated MW     | <b>90070</b>           |

**RRM1 - Additional info**

|                                                                                                                                                                  |             |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|
| Gene ID                                                                                                                                                          | <b>6240</b> |
| Gene Name                                                                                                                                                        | <b>RRM1</b> |
| <b>Other Names</b>                                                                                                                                               |             |
| Ribonucleoside-diphosphate reductase large subunit, 1.17.4.1, Ribonucleoside-diphosphate reductase subunit M1, Ribonucleotide reductase large subunit, RRM1, RR1 |             |

**Dilution**

IHC-P~~Ready-to-use

**Storage**

Maintain refrigerated at 2-8°C

**Precautions****RRM1 Antibody is for research use only and not for use in diagnostic or therapeutic procedures.****RRM1 - Protein Information****Name** RRM1Synonyms  
Function**RR1**  
**Provides the precursors necessary for DNA synthesis. Catalyzes the biosynthesis of deoxyribonucleotides from the corresponding ribonucleotides. Cytoplasm.**

Cellular Location

**RRM1 - Protocols**

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)

- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)
