

### MLH1

Rabbit Monoclonal antibody(Mab) Catalog # AD80242

## Specification

## MLH1 - Product info

Application Primary Accession Reactivity Host Clonality Calculated MW IHC-P P40692 Human Rabbit Monoclonal 84601

# MLH1 - Additional info

Gene ID4292Gene NameMLH1Other NamesDNA mismatch repair protein Mlh1, MutL protein homolog 1, MLH1, COCA2

Dilution IHC-P~~Ready-to-use

Storage Maintain refrigerated at 2-8°C

Precautions

MLH1 Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

#### **MLH1 - Protein Information**

Name MLH1

Synonyms Function

### COCA2

Heterodimerizes with PMS2 to form MutL alpha, a component of the post-replicative DNA mismatch repair system (MMR). DNA repair is initiated by MutS alpha (MSH2-MSH6) or MutS beta (MSH2-MSH3) binding to a dsDNA mismatch, then MutL alpha is recruited to the heteroduplex. Assembly of the MutL-MutS- heteroduplex ternary complex in presence of RFC and PCNA is sufficient to activate endonuclease activity of PMS2. It introduces single-strand breaks near the mismatch and thus generates new entry points for the exonuclease EXO1 to degrade the

strand containing the mismatch. DNA methylation would prevent cleavage and therefore assure that only the newly mutated DNA strand is going to be corrected. MutL alpha (MLH1-PMS2) interacts physically with the clamp loader subunits of DNA polymerase III, suggesting that it may play a role to recruit the DNA polymerase III to the site of the MMR. Also implicated in DNA damage signaling, a process which induces cell cycle arrest and can lead to apoptosis in case of major DNA damages. Heterodimerizes with MLH3 to form MutL gamma which plays a role in meiosis. Nucleus. Chromosome. Note=Recruited to chromatin in a MCM9-dependent manner. Colon, lymphocytes, breast, lung, spleen, testis, prostate, thyroid, gall bladder and

#### MLH1 - Protocols

Provided below are standard protocols that you may find useful for product applications.

heart

- <u>Western Blot</u>
- Blocking Peptides
- <u>Dot Blot</u>
- <u>Immunohistochemistry</u>
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- <u>Cell Culture</u>

# MLH1 - Images

Colon cancer

Immunohistochemical analysis of paraffin-embedded esophageal squamous cell carcinomas tissue using AD80242 performed on the Abcarta® FAIP-30 Fully automated IHC platform.Tissue was fixed with formaldehyde at room temperature, antigen retrieval was by heat mediation with a EDTA buffer (pH9. 0). Samples were incubated with primary antibody(Ready-to-use) for 15 min at room temperature. AmpSeeTM Detection Systems[Abcepta:AR005] was used as the secondary antibody.
