

# MLH1 antibody

Mouse Monoclonal Antibody (Mab)
Catalog # AD80539

# **Specification**

### MLH1 antibody - Product info

Application IHC-P
Primary Accession P40692
Reactivity Human
Host Rabbit
Clonality Monoclonal
Calculated MW 84601 Da

# MLH1 antibody - Additional info

Gene ID 4292

**Other Names** 

DNA mismatch repair protein Mlh1, MutL protein homolog 1, MLH1, COCA2

**Dilution** IHC-P~~N/A

**Storage** 

Maintain refrigerated at 2-8°C

Precautions MLH1 antibody is for research use only and

not for use in diagnostic or therapeutic

procedures.

### **MLH1** antibody - Protein Information

Name MLH1

**Function** 

Synonyms COCA2

alpha, a component of the post-replicative
DNA mismatch repair system (MMR). DNA
repair is initiated by MutS alpha
(MSH2-MSH6) or MutS beta (MSH2-MSH3)

(MSH2-MSH6) or MutS beta (MSH2-MSH3) binding to a dsDNA mismatch, then MutL alpha is recruited to the heteroduplex. Assembly of the MutL-MutS-heteroduplex ternary complex in presence of RFC and PCNA is sufficient to activate endonuclease

**Heterodimerizes with PMS2 to form MutL** 

activity of PMS2. It introduces

single-strand breaks near the mismatch and thus generates new entry points for the exonuclease EXO1 to degrade the strand containing the mismatch. DNA

methylation would prevent cleavage and therefore assure that only the newly mutated DNA strand is going to be corrected. MutL alpha (MLH1-PMS2) interacts physically with the clamp loader subunits of DNA polymerase III, suggesting that it may play a role to recruit the DNA polymerase III to the site of the MMR. Also implicated in DNA damage signaling, a process which induces cell cycle arrest and can lead to apoptosis in case of major DNA damages. Heterodimerizes with MLH3 to form MutL gamma which plays a role in

Nucleus. Chromosome Note=Recruited to chromatin in a MCM9-dependent manner Colon, lymphocytes, breast, lung, spleen, testis, prostate, thyroid, gall bladder and heart

#### **MLH1** antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- Cell Culture
