

# LSM6 Antibody (internal region)

Peptide-affinity purified goat antibody Catalog # AF3787a

### **Specification**

# LSM6 Antibody (internal region) - Product Information

Application

Primary Accession P62312

Other Accession NP\_009011.1, 11157, 78651 (mouse), 498934

<u>(rat)</u>

Predicted Human, Mouse, Rat, Pig, Dog

Host Goat
Clonality Polyclonal
Concentration 0.5 mg/ml
Isotype IqG

Isotype IgG
Calculated MW 9128

# LSM6 Antibody (internal region) - Additional Information

**Gene ID 11157** 

# **Other Names**

U6 snRNA-associated Sm-like protein LSm6, LSM6

### **Dilution**

E~~N/A

#### **Format**

0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin

# **Storage**

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

### **Precautions**

LSM6 Antibody (internal region) is for research use only and not for use in diagnostic or therapeutic procedures.

### LSM6 Antibody (internal region) - Protein Information

# Name LSM6

#### **Function**

Plays a role in pre-mRNA splicing as component of the U4/U6- U5 tri-snRNP complex that is involved in spliceosome assembly, and as component of the precatalytic spliceosome (spliceosome B complex) (PubMed:<a href="http://www.uniprot.org/citations/28781166" target="\_blank">28781166</a>). The heptameric LSM2-8 complex binds specifically to the

3'-terminal U-tract of U6 snRNA (PubMed:<a href="http://www.uniprot.org/citations/10523320" target=" blank">10523320</a>). Component of LSm protein complexes, which are involved in RNA processing and may function in a chaperone-like manner, facilitating the efficient association of RNA processing factors with their substrates. Component of the cytoplasmic LSM1-LSM7 complex, which is thought to be involved in mRNA degradation by activating the decapping step in the 5'-to-3' mRNA decay pathway (Probable).

**Cellular Location** Cytoplasm. Nucleus

# LSM6 Antibody (internal region) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- <u>Immunohistochemistry</u>
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- Cell Culture
