

Goat Anti-B7-H3 / CD276 Antibody (C Terminus)
Purified Goat Polyclonal Antibody
Catalog # AF4309a**Specification**

Goat Anti-B7-H3 / CD276 Antibody (C Terminus) - Product Information

| | |
|-------------------|--|
| Application | WB, E |
| Primary Accession | Q5ZPR3 |
| Other Accession | NP_001019907.1 , NP_079516.1 , 80381 |
| Reactivity | Human |
| Host | Goat |
| Clonality | Polyclonal |
| Calculated MW | 57235 |

Goat Anti-B7-H3 / CD276 Antibody (C Terminus) - Additional Information**Gene ID** 80381**Other Names**

CD276; CD276 molecule; 4Ig-B7-H3; B7-H3; B7H3; B7RP-2; B7 homolog 3; costimulatory molecule

Dilution

WB~~1:1000

E~~N/A

Format

Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin. Aliquot and store at -20°C. Minimize freezing and thawing.

Immunogen

Peptide with sequence C-KHSDSKEDDGQE, from the C Terminus of the protein sequence according to NP_001019907.1; NP_079516.1.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

Goat Anti-B7-H3 / CD276 Antibody (C Terminus) is for research use only and not for use in diagnostic or therapeutic procedures.

Goat Anti-B7-H3 / CD276 Antibody (C Terminus) - Protein Information**Name** CD276**Synonyms** B7H3

Function

May participate in the regulation of T-cell-mediated immune response. May play a protective role in tumor cells by inhibiting natural-killer cell mediated cell lysis as well as a role of marker for detection of neuroblastoma cells. May be involved in the development of acute and chronic transplant rejection and in the regulation of lymphocytic activity at mucosal surfaces. Could also play a key role in providing the placenta and fetus with a suitable immunological environment throughout pregnancy. Both isoform 1 and isoform 2 appear to be redundant in their ability to modulate CD4 T-cell responses. Isoform 2 is shown to enhance the induction of cytotoxic T-cells and selectively stimulates interferon gamma production in the presence of T-cell receptor signaling.

Cellular Location

Membrane; Single-pass type I membrane protein

Tissue Location

Ubiquitous but not detectable in peripheral blood lymphocytes or granulocytes. Weakly expressed in resting monocytes Expressed in dendritic cells derived from monocytes. Expressed in epithelial cells of sinonasal tissue. Expressed in extravillous trophoblast cells and Hofbauer cells of the first trimester placenta and term placenta.

Goat Anti-B7-H3 / CD276 Antibody (C Terminus) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)

Goat Anti-B7-H3 / CD276 Antibody (C Terminus) - Images

AF4309a (0.1 µg/ml) staining of Human Placenta (A) and (2ug/ml) Testes (B) lysate (35 µg protein in RIPA buffer). Primary incubation was 1 hour. Detected by chemiluminescence.
