

### Goat anti-SLC2A4 Antibody

Peptide-affinity purified goat antibody Catalog # AF4538a

# **Specification**

# Goat anti-SLC2A4 Antibody - Product Information

Application IF, Pep-ELISA

Primary Accession P14672
Other Accession NP\_001033.1

Reactivity Human, Mouse, Rat, Rabbit, Pig, Dog,

Bovine Goat Polyclonal 54787

Host Clonality Calculated MW

# Goat anti-SLC2A4 Antibody - Additional Information

### **Gene ID 6517**

### **Other Names**

SLC2A4; solute carrier family 2 (facilitated glucose transporter), member 4; GLUT4; glucose transporter 4; insulin-responsive glucose transporter type 4

### **Dilution**

IF~~1:50~200 Pep-ELISA~~N/A

### **Format**

Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin. Aliquot and store at -20°C. Minimize freezing and thawing.

#### Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

### **Precautions**

Goat anti-SLC2A4 Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

# Goat anti-SLC2A4 Antibody - Protein Information

# Name SLC2A4 (HGNC:11009)

# **Function**

Insulin-regulated facilitative glucose transporter, which plays a key role in removal of glucose from circulation. Response to insulin is regulated by its intracellular localization: in the absence of insulin, it is efficiently retained intracellularly within storage compartments in muscle and fat cells.

Upon insulin stimulation, translocates from these compartments to the cell surface where it

### **Cellular Location**

Cell membrane {ECO:0000250|UniProtKB:P14142}; Multi-pass membrane protein {ECO:0000250|UniProtKB:P14142} Endomembrane system; Multi-pass membrane protein. Cytoplasm, perinuclear region {ECO:0000250|UniProtKB:P14142}. Note=Localizes primarily to the perinuclear region, undergoing continued recycling to the plasma membrane where it is rapidly reinternalized (PubMed:8300557). The dileucine internalization motif is critical for intracellular sequestration (PubMed:8300557). Insulin stimulation induces translocation to the cell membrane (By similarity) {ECO:0000250|UniProtKB:P14142, ECO:0000269|PubMed:8300557}

### **Tissue Location**

Skeletal and cardiac muscles; brown and white fat.

transports glucose from the extracellular milieu into the cell.

# Goat anti-SLC2A4 Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- <u>Immunofluorescence</u>
- Immunoprecipitation
- Flow Cytomety
- Cell Culture
