

Anti-CELA3B / ELA3B Antibody

Mouse Monoclonal Antibody Catalog # AH13239

Specification

Anti-CELA3B / ELA3B Antibody - Product Information

Application IF, FC, E
Primary Accession P08861
Other Accession 728752
Reactivity Human
Host Mouse
Clonality Monoclonal
Isotype Mouse / IgG3

Calculated MW 29263

Anti-CELA3B / ELA3B Antibody - Additional Information

Gene ID 23436

Other Names

Chymotrypsin like elastase family member 3B (CELA3B); ELA3B; Elastase IIIB; Protease E

Application Note

```
<span class ="dilution_IF">IF\sim1:50\sim200/span><br/>br \><span class
="dilution FC">FC\sim1:10\sim50/span><br/>br \><span class ="dilution E">E\simN/A</span>
```

Format

200ug/ml of Ab purified from Bioreactor Concentrate by Protein A/G. Prepared in 10mM PBS with 0.05% BSA & 0.05% azide. Also available WITHOUT BSA & azide at 1.0mg/ml.

Storage

Store at 2 to 8°C. Antibody is stable for 24 months.

Precautions

Anti-CELA3B / ELA3B Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

Anti-CELA3B / ELA3B Antibody - Protein Information

Name CELA3B

Synonyms ELA3B

Function

Efficient protease with alanine specificity but only little elastolytic activity.

Tissue Location

Pancreas. Not detectable in keratinocytes.

Anti-CELA3B / ELA3B Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- <u>Immunohistochemistry</u>
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- Cell Culture

Anti-CELA3B / ELA3B Antibody - Images

Anti-CELA3B / ELA3B Antibody - Background

This MAb recognizes a protein of ~30kDa, identified as CELA3B (Chymotrypsin like elastase family member 3B). Elastases form a subfamily of serine proteases that hydrolyze many proteins in addition to elastin. Humans have six elastase genes which encode the structurally similar proteins elastase 1, 2, 2A, 2B, 3A, and 3B. Unlike other elastases, elastase 3B has little elastolytic activity. Like most of the human elastases, elastase 3B is secreted from the pancreas as a zymogen and, like other serine proteases such as trypsin, chymotrypsin and kallikrein; it has a digestive function in the intestine. Elastase 3B preferentially cleaves proteins after alanine residues. Elastase 3B may also function in the intestinal transport and metabolism of cholesterol. Both elastase 3A and elastase 3B have been referred to as protease E and as elastase 1, and excretion of this protein in fecal material is frequently used as a measure of pancreatic function in clinical assays.
