

lab antibody - N-terminal region
Rabbit Polyclonal Antibody
Catalog # AI12854**Specification**

lab antibody - N-terminal region - Product Information

Application	WB
Primary Accession	P10105
Other Accession	CAA31495
Host	Rabbit
Clonality	Polyclonal
Calculated MW	54kDa KDa

lab antibody - N-terminal region - Additional Information**Gene ID 40817**

Alias Symbol	Dmel_CG1264, BG:DS00004.9, CG1264, DmLab, EfR9, F121, F24, F90, F90-2, I(3)01241, I(3)84Ac, Ib, Dm lab, Dmel\CG1264, Dmlab, Lab
--------------	---

Other Names

Homeotic protein labial, F24, F90-2, lab

Format

Liquid. Purified antibody supplied in 1x PBS buffer with 0.09% (w/v) sodium azide and 2% sucrose.

Reconstitution & Storage

Add 50 ul of distilled water. Final anti-lab antibody concentration is 1 mg/ml in PBS buffer with 2% sucrose. For longer periods of storage, store at 20°C. Avoid repeat freeze-thaw cycles.

Precautions

lab antibody - N-terminal region is for research use only and not for use in diagnostic or therapeutic procedures.

lab antibody - N-terminal region - Protein Information**Name lab****Function**

Sequence-specific transcription factor which is part of a developmental regulatory system that provides cells with specific positional identities on the anterior-posterior axis. Required for proper head development.

Cellular Location

Nucleus.

Tissue Location

During embryogenesis, expressed in mandibular lobe, hypopharyngeal organ, neural and epidermal cells of procephalic lobe, sensory cells of clypeolabrum, posterior midgut, thoracic and abdominal segments.

lab antibody - N-terminal region - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)
