PTHR2 / PTH2R Antibody (C-Terminus) - Protein Information**Name** PTH2R**Synonyms** PTHR2**Function**

This is a specific receptor for parathyroid hormone. The activity of this receptor is mediated by G proteins which activate adenylyl cyclase. PTH2R may be responsible for PTH effects in a number of physiological systems. It may play a significant role in pancreatic function. PTH2R presence in neurons indicates that it may function as a neurotransmitter receptor (By similarity).

Cellular Location

Cell membrane; Multi-pass membrane protein.

Tissue Location

Expressed abundantly in brain and pancreas. Also expressed in the testis.

Volume

50 µl
