

# PTPMT1 Antibody (Internal)

Rabbit Polyclonal Antibody Catalog # ALS10615

## **Specification**

# PTPMT1 Antibody (Internal) - Product Information

Application IHC
Primary Accession
Reactivity
Host
Clonality
Calculated MW
IHC
08WUK0
Human
Rabbit
Polyclonal
23kDa KDa

# PTPMT1 Antibody (Internal) - Additional Information

#### Gene ID 114971

#### **Other Names**

Phosphatidylglycerophosphatase and protein-tyrosine phosphatase 1, 3.1.3.27, PTEN-like phosphatase, Phosphoinositide lipid phosphatase, Protein-tyrosine phosphatase mitochondrial 1, 3.1.3.16, 3.1.3.48, PTPMT1, MOSP, PLIP

# **Target/Specificity**

Human PTPMT1. BLAST analysis of the peptide immunogen showed no homology with other human proteins.

### **Reconstitution & Storage**

Long term: -70°C; Short term: +4°C

#### **Precautions**

PTPMT1 Antibody (Internal) is for research use only and not for use in diagnostic or therapeutic procedures.

# PTPMT1 Antibody (Internal) - Protein Information

Name PTPMT1 (HGNC:26965)

Synonyms MOSP, PLIP

### **Function**

Lipid phosphatase which dephosphorylates phosphatidylglycerophosphate (PGP) to phosphatidylglycerol (PG) (By similarity). PGP is an essential intermediate in the biosynthetic pathway of cardiolipin, a mitochondrial-specific phospholipid regulating the membrane integrity and activities of the organelle (By similarity). Has also been shown to display phosphatase activity toward phosphorotein substrates, specifically mediates dephosphorylation of mitochondrial proteins, thereby playing an essential role in ATP production (By similarity). Has probably a preference for proteins phosphorylated on Ser and/or Thr residues compared to proteins phosphorylated on Tyr residues (By similarity). Probably involved in regulation of insulin secretion

in pancreatic beta cells (By similarity). May prevent intrinsic apoptosis, probably by regulating mitochondrial membrane integrity (PubMed:<a href="http://www.uniprot.org/citations/24709986" target=" blank">24709986</a>).

### **Cellular Location**

Mitochondrion inner membrane {ECO:0000250|UniProtKB:P0C089}; Peripheral membrane protein {ECO:0000250|UniProtKB:P0C089}; Matrix side {ECO:0000250|UniProtKB:P0C089}

Volume

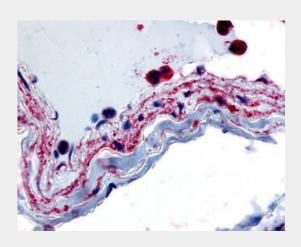

50 μl

# PTPMT1 Antibody (Internal) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- <u>Immunohistochemistry</u>
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- Cell Culture

# PTPMT1 Antibody (Internal) - Images

Anti-PTPMT1 antibody ALS10615 IHC of human vascular smooth muscle.

## PTPMT1 Antibody (Internal) - Background

Lipid phosphatase which dephosphorylates phosphatidylglycerophosphate (PGP) to phosphatidylglycerol (PG). PGP is an essential intermediate in the biosynthetic pathway of cardiolipin, a mitochondrial-specific phospholipid regulating the membrane integrity and activities of the organelle. Has also been shown to display phosphatase activity toward phosphoprotein substrates, specifically mediates dephosphorylation of mitochondrial proteins, thereby playing an essential role in ATP production. Has probably a preference for proteins phosphorylated on Ser and/or Thr residues compared to proteins phosphorylated on Tyr residues. Probably involved in regulation of insulin secretion in pancreatic beta cells (By similarity).
