

KATII / AADAT Antibody (N-Terminus)
Rabbit Polyclonal Antibody
Catalog # ALS11111**Specification**

KATII / AADAT Antibody (N-Terminus) - Product Information

Application	IHC
Primary Accession	Q8N5Z0
Reactivity	Human
Host	Rabbit
Clonality	Polyclonal
Calculated MW	47kDa KDa

KATII / AADAT Antibody (N-Terminus) - Additional Information**Gene ID** 51166**Other Names**

Kynurenine/alpha-aminoadipate aminotransferase, mitochondrial, KAT/AadAT, 2-aminoadipate aminotransferase, 2-aminoadipate transaminase, 2.6.1.39, Alpha-aminoadipate aminotransferase, AadAT, Kynurenine aminotransferase II, Kynurenine--oxoglutarate aminotransferase II, Kynurenine--oxoglutarate transaminase 2, 2.6.1.7, Kynurenine--oxoglutarate transaminase II, AADAT, KAT2

Target/Specificity

Human AADAT. BLAST analysis of the peptide immunogen showed no homology with other human proteins.

Reconstitution & Storage

Store at 4°C for short term applications. For long term storage, aliquot and store at -20°C.

Precautions

KATII / AADAT Antibody (N-Terminus) is for research use only and not for use in diagnostic or therapeutic procedures.

KATII / AADAT Antibody (N-Terminus) - Protein Information**Name** AADAT ([HGNC:17929](#))**Function**

Transaminase with broad substrate specificity. Has transaminase activity towards aminoadipate, kynurenine, methionine and glutamate. Shows activity also towards tryptophan, aspartate and hydroxykynurenine. Accepts a variety of oxo-acids as amino-group acceptors, with a preference for 2-oxoglutarate, 2-oxocaproic acid, phenylpyruvate and alpha-oxo-gamma-methiol butyric acid. Can also use glyoxylate as amino-group acceptor (in vitro).

Cellular Location

Mitochondrion.

Tissue Location

Higher expression in the liver. Also found in heart, brain, kidney, pancreas, prostate, testis and ovary

Volume

50 µl

KATII / AADAT Antibody (N-Terminus) - Protocols

Provided below are standard protocols that you may find useful for product applications.
