

FN1 / Fibronectin Antibody
Rabbit Polyclonal Antibody
Catalog # ALS11336**Specification**

FN1 / Fibronectin Antibody - Product Information

| | |
|-------------------|------------------------|
| Application | IHC |
| Primary Accession | P02751 |
| Reactivity | Human |
| Host | Rabbit |
| Clonality | Polyclonal |
| Calculated MW | 263kDa KDa |

FN1 / Fibronectin Antibody - Additional Information**Gene ID** 2335**Other Names**

Fibronectin, FN, Cold-insoluble globulin, CIG, Anastellin, Ugl-Y1, Ugl-Y2, Ugl-Y3, FN1, FN

Target/Specificity

Fibronectin was purified from Human plasma by binding to a denatured gelatin column followed by elution with high concentrations of arginine. The eluted material was further purified by gel filtration. Immunization occurred after single-band purity w ...

Reconstitution & Storage

Store vial at 4 C prior to opening. This product is stable at 4 C as an undiluted liquid. Dilute only prior to immediate use. For extended storage mix with an equal volume of glycerol, aliquot contents and freeze at -20 C or below.

Precautions

FN1 / Fibronectin Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

FN1 / Fibronectin Antibody - Protein Information**Name** FN1 ([HGNC:3778](#))**Synonyms** FN**Function**

Fibronectins bind cell surfaces and various compounds including collagen, fibrin, heparin, DNA, and actin (PubMed:<[a href="http://www.uniprot.org/citations/3024962" target="_blank">3024962](http://www.uniprot.org/citations/3024962), PubMed:<[a href="http://www.uniprot.org/citations/3900070" target="_blank">3900070](http://www.uniprot.org/citations/3900070), PubMed:<[a href="http://www.uniprot.org/citations/3593230" target="_blank">3593230](http://www.uniprot.org/citations/3593230), PubMed:<[a href="http://www.uniprot.org/citations/7989369" target="_blank">7989369](http://www.uniprot.org/citations/7989369)). Fibronectins are involved in cell adhesion, cell motility, opsonization, wound healing, and maintenance of cell shape (PubMed:<a

[>3024962, PubMed:3900070, PubMed:3593230, PubMed:7989369\). Involved in osteoblast compaction through the fibronectin fibrillogenesis cell-mediated matrix assembly process, essential for osteoblast mineralization \(By similarity\). Participates in the regulation of type I collagen deposition by osteoblasts \(By similarity\). Acts as a ligand for the LILRB4 receptor, inhibiting FCGR1A/CD64-mediated monocyte activation \(PubMed:34089617\).](http://www.uniprot.org/citations/3024962)

Cellular Location

Secreted, extracellular space, extracellular matrix. Secreted {ECO:0000250|UniProtKB:P11276}

Tissue Location

Expressed in the inner limiting membrane and around blood vessels in the retina (at protein level) (PubMed:29777959) Plasma FN (soluble dimeric form) is secreted by hepatocytes. Cellular FN (dimeric or cross-linked multimeric forms), made by fibroblasts, epithelial and other cell types, is deposited as fibrils in the extracellular matrix. Ugl-Y1, Ugl-Y2 and Ugl-Y3 are found in urine (PubMed:17614963).

FN1 / Fibronectin Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.
