

STMN1 / Stathmin / LAG Antibody

Rabbit Polyclonal Antibody Catalog # ALS13639

Specification

STMN1 / Stathmin / LAG Antibody - Product Information

Application IF, WB, IHC
Primary Accession P16949
Reactivity Human
Host Rabbit
Clonality Polyclonal
Calculated MW 17kDa KDa

STMN1 / Stathmin / LAG Antibody - Additional Information

Gene ID 3925

Other Names

Stathmin, Leukemia-associated phosphoprotein p18, Metablastin, Oncoprotein 18, Op18, Phosphoprotein p19, pp19, Prosolin, Protein Pr22, pp17, STMN1, Clorf215, LAP18, OP18

Target/Specificity

Human Stathmin 1.

Reconstitution & Storage

Aliquot and store at -20°C. Minimize freezing and thawing.

Precautions

STMN1 / Stathmin / LAG Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

STMN1 / Stathmin / LAG Antibody - Protein Information

Name STMN1

Synonyms Clorf215, LAP18, OP18

Function

Involved in the regulation of the microtubule (MT) filament system by destabilizing microtubules. Prevents assembly and promotes disassembly of microtubules. Phosphorylation at Ser-16 may be required for axon formation during neurogenesis. Involved in the control of the learned and innate fear (By similarity).

Cellular Location

Cytoplasm, cytoskeleton.

Tissue Location

Ubiquitous. Expression is strongest in fetal and adult brain, spinal cord, and cerebellum, followed

by thymus, bone marrow, testis, and fetal liver. Expression is intermediate in colon, ovary, placenta, uterus, and trachea, and is readily detected at substantially lower levels in all other tissues examined. Lowest expression is found in adult liver. Present in much greater abundance in cells from patients with acute leukemia of different subtypes than in normal peripheral blood lymphocytes, non-leukemic proliferating lymphoid cells, bone marrow cells, or cells from patients with chronic lymphoid or myeloid leukemia.

Volume 50 μl

STMN1 / Stathmin / LAG Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- <u>Immunohistochemistry</u>
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- Cell Culture

STMN1 / Stathmin / LAG Antibody - Images

Immunofluorescence of paraformaldehyde-fixed HeLa, using Stathmin 1 antibody at 1:200 dilution.

Sample(30 g of whole cell lysate).

Anti-STMN1 antibody IHC of human colon.

STMN1 / Stathmin / LAG Antibody - Background

Involved in the regulation of the microtubule (MT) filament system by destabilizing microtubules. Prevents assembly and promotes disassembly of microtubules. Phosphorylation at Ser- 16 may be required for axon formation during neurogenesis. Involved in the control of the learned and innate fear (By similarity).
