NTSR1 / NTR Antibody (aa181-230) - Protein Information**Name** NTSR1**Synonyms** NTRR**Function**

G-protein coupled receptor for the tridecapeptide neurotensin (NTS) (PubMed:21725197, PubMed:23140271, PubMed:8381365). Signaling is effected via G proteins that activate a phosphatidylinositol-calcium second messenger system. Signaling leads to the activation of downstream MAP kinases and protects cells against apoptosis (PubMed:21725197).

Cellular Location

Cell membrane; Multi-pass membrane protein. Membrane raft. Note=Palmitoylation is required for

localization at CAV1-enriched membrane rafts

Tissue Location

Expressed in prostate (at protein level). Detected in colon and peripheral blood mononuclear cells. Detected at very low levels in brain.
