

**NOS3 / eNOS Antibody (aa1181-1194)**  
**Rabbit Polyclonal Antibody**  
**Catalog # ALS14207****Specification**

---

**NOS3 / eNOS Antibody (aa1181-1194) - Product Information**

Application	WB, IHC-P
Primary Accession	<a href="#">P29474</a>
Reactivity	Human, Rabbit, Monkey
Host	Rabbit
Clonality	Polyclonal
Calculated MW	133kDa KDa
Dilution	WB~~1:1000 IHC-P~~N/A

**NOS3 / eNOS Antibody (aa1181-1194) - Additional Information****Gene ID** 4846**Other Names**

Nitric oxide synthase, endothelial, 1.14.13.39, Constitutive NOS, cNOS, EC-NOS, Endothelial NOS, eNOS, NOS type III, NOSIII, NOS3

**Target/Specificity**

Recognizes eNOS/NOS III, Mr ~135kD. Species cross-reactivity: Human and bovine. Predicted to cross-react with mouse, guinea pig, porcine, rat and canine based on sequence homology.

**Reconstitution & Storage**

May be stored at 4°C for short-term only. For long-term storage and to avoid repeated freezing and thawing, aliquot and store at -20°C. Aliquots are stable for at least 12 months at -20°C

**Precautions**

NOS3 / eNOS Antibody (aa1181-1194) is for research use only and not for use in diagnostic or therapeutic procedures.

**NOS3 / eNOS Antibody (aa1181-1194) - Protein Information****Name** NOS3 ([HGNC:7876](#))**Function**

Produces nitric oxide (NO) which is implicated in vascular smooth muscle relaxation through a cGMP-mediated signal transduction pathway (PubMed:<a href="http://www.uniprot.org/citations/1378832" target="\_blank">1378832</a>). NO mediates vascular endothelial growth factor (VEGF)-induced angiogenesis in coronary vessels and promotes blood clotting through the activation of platelets.

**Cellular Location**

Cell membrane. Membrane, caveola. Cytoplasm, cytoskeleton. Golgi apparatus. Note=Specifically

associates with actin cytoskeleton in the G2 phase of the cell cycle; which is favored by interaction with NOSIP and results in a reduced enzymatic activity

**Tissue Location**

Platelets, placenta, liver and kidney.

**Volume**

50  $\mu$ l

**NOS3 / eNOS Antibody (aa1181-1194) - Protocols**

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)

**NOS3 / eNOS Antibody (aa1181-1194) - Images**

Anti-ENOS antibody IHC of human spleen.

**NOS3 / eNOS Antibody (aa1181-1194) - Background**

Produces nitric oxide (NO) which is implicated in vascular smooth muscle relaxation through a cGMP-mediated signal transduction pathway. NO mediates vascular endothelial growth factor (VEGF)-induced angiogenesis in coronary vessels and promotes blood clotting through the activation of platelets.
