

### NRBP1 / NRBP Antibody (clone 2C8)

**Mouse Monoclonal Antibody** Catalog # ALS15827

### **Specification**

### NRBP1 / NRBP Antibody (clone 2C8) - Product Information

**WB** Application O9UHY1 **Primary Accession** Reactivity Human Host Mouse Clonality **Monoclonal** Calculated MW 60kDa KDa

### NRBP1 / NRBP Antibody (clone 2C8) - Additional Information

Gene ID 29959

#### **Other Names**

Nuclear receptor-binding protein, NRBP1, BCON3 {ECO:0000312|EMBL:AAF21967.1}, NRBP

## Target/Specificity Human NRBP1 / MADM

# **Reconstitution & Storage**

Store at -20°C. Minimize freezing and thawing.

#### **Precautions**

NRBP1 / NRBP Antibody (clone 2C8) is for research use only and not for use in diagnostic or therapeutic procedures.

## NRBP1 / NRBP Antibody (clone 2C8) - Protein Information

### Name NRBP1

**Synonyms** BCON3 {ECO:0000312|EMBL:AAF21967.1}, NRB

### **Function**

Required for embryonic development (By similarity). Plays a role in intestinal epithelial cell fate and proliferation, thereby involved in the architectural development of the intestine potentially via the regulation of Wnt-responsive genes (By similarity). May play a role in subcellular trafficking between the endoplasmic reticulum and Golgi apparatus through interactions with the Rho-type GTPases (PubMed: <a href="http://www.uniprot.org/citations/11956649" target=" blank">11956649</a>). Binding to the NS3 protein of dengue virus type 2 appears to subvert this activity into the alteration of the intracellular membrane structure associated with flaviviral replication (PubMed:<a href="http://www.uniprot.org/citations/15084397"

### **Cellular Location**

target="\_blank">15084397</a>).

Cytoplasm, cell cortex. Endomembrane system. Cell projection, lamellipodium. Note=Colocalizes with activated RAC3 to endomembranes and at the cell periphery in lamellipodia

#### **Tissue Location**

Ubiquitously expressed in all tissues examined with high levels in the testis.

Volume

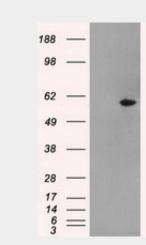

50 μl

### NRBP1 / NRBP Antibody (clone 2C8) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- Cell Culture

## NRBP1 / NRBP Antibody (clone 2C8) - Images

HEK293T cells were transfected with the pCMV6-ENTRY control (Left lane) or pCMV6-ENTRY NRBP1...

# NRBP1 / NRBP Antibody (clone 2C8) - Background

May play a role in subcellular trafficking between the endoplasmic reticulum and Golgi apparatus through interactions with the Rho-type GTPases. Binding to the NS3 protein of dengue virus type 2 appears to subvert this activity into the alteration of the intracellular membrane structure associated with flaviviral replication.
