

CD6 Antibody (clone UMCD6/3F7B5)
Mouse Monoclonal Antibody
Catalog # ALS17228**Specification**

CD6 Antibody (clone UMCD6/3F7B5) - Product Information

Application	WB, IHC-P, FuncS, FC
Primary Accession	P30203
Other Accession	923
Reactivity	Human
Host	Mouse
Clonality	Monoclonal
Isotype	IgG1,k
Calculated MW	71801
Dilution	WB~~1:1000 IHC-P~~N/A FuncS~~N/A FC~~1:10~50

CD6 Antibody (clone UMCD6/3F7B5) - Additional Information**Gene ID** 923**Other Names**

CD6, CD6 molecule, T12, TP120, CD6 antigen

Target/Specificity

CD6 molecules of approximately 130 kd.

Reconstitution & Storage

50 mM sodium phosphate, pH 7.5, 100 mM potassium chloride, 150 mM sodium chloride, 0.5 mg/ml Gentamicin sulfate. Store at +4°C. DO NOT FREEZE.

Precautions

CD6 Antibody (clone UMCD6/3F7B5) is for research use only and not for use in diagnostic or therapeutic procedures.

CD6 Antibody (clone UMCD6/3F7B5) - Protein Information**Name** CD6 ([HGNC:1691](#))**Function**

Cell adhesion molecule that mediates cell-cell contacts and regulates T-cell responses via its interaction with ALCAM/CD166 (PubMed:<[a href="http://www.uniprot.org/citations/15048703" target="_blank">15048703](http://www.uniprot.org/citations/15048703)><[a href="http://www.uniprot.org/citations/15294938" target="_blank">15294938](http://www.uniprot.org/citations/15294938)><[a href="http://www.uniprot.org/citations/16352806" target="_blank">16352806](http://www.uniprot.org/citations/16352806)><[a href="http://www.uniprot.org/citations/16914752" target="_blank">16914752](http://www.uniprot.org/citations/16914752)><[a href="http://www.uniprot.org/citations/24584089" target="_blank">24584089](http://www.uniprot.org/citations/24584089)>

target="_blank">24584089, PubMed:24945728). Contributes to signaling cascades triggered by activation of the TCR/CD3 complex (PubMed:24584089). Functions as a costimulatory molecule; promotes T-cell activation and proliferation (PubMed:15294938, PubMed:16352806, PubMed:16914752). Contributes to the formation and maturation of the immunological synapse (PubMed:15294938, PubMed:16352806). Functions as a calcium- dependent pattern receptor that binds and aggregates both Gram-positive and Gram-negative bacteria. Binds both lipopolysaccharide (LPS) from Gram-negative bacteria and lipoteichoic acid from Gram-positive bacteria (PubMed:17601777). LPS binding leads to the activation of signaling cascades and down-stream MAP kinases (PubMed:17601777). Mediates activation of the inflammatory response and the secretion of pro-inflammatory cytokines in response to LPS (PubMed:17601777).

Cellular Location

Cell membrane; Single-pass type I membrane protein. Note=Detected at the immunological synapse, i.e, at the contact zone between antigen-presenting dendritic cells and T-cells (PubMed:15294938, PubMed:16352806). Colocalizes with the TCR/CD3 complex at the immunological synapse (PubMed:15294938)

Tissue Location

Detected on thymocytes (PubMed:15294938). Detected on peripheral blood T-cells (PubMed:15048703, PubMed:16352806) Detected on natural killer (NK) cells (PubMed:16352806). Soluble CD6 is detected in blood serum (at protein level) (PubMed:17601777). Detected in spleen, thymus, appendix, lymph node and peripheral blood leukocytes (PubMed:9013954). Expressed by thymocytes, mature T-cells, a subset of B-cells known as B-1 cells, and by some cells in the brain

CD6 Antibody (clone UMCD6/3F7B5) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)

CD6 Antibody (clone UMCD6/3F7B5) - Background

Involved in cell adhesion. Binds to CD166.
