

Anti-EAR2 / NR2F6 Antibody (N-Terminus)

Rabbit Anti Human Polyclonal Antibody Catalog # ALS17485

Specification

Anti-EAR2 / NR2F6 Antibody (N-Terminus) - Product Information

Application IHC-P Primary Accession P10588

Predicted Human, Monkey

Host Rabbit
Clonality Polyclonal
Calculated MW 42979

Anti-EAR2 / NR2F6 Antibody (N-Terminus) - Additional Information

Gene ID 2063

Alias Symbol NR2F6

Other Names

NR2F6, Erba related 2, ERBAL2, EAR-2, EAR2, ERBA-related gene-2, V-erbA-related protein 2

Target/Specificity

Human NR2F6. BLAST analysis of the peptide immunogen showed no homology with other human proteins.

Reconstitution & Storage Immunoaffinity purified

Precautions

Anti-EAR2 / NR2F6 Antibody (N-Terminus) is for research use only and not for use in diagnostic or therapeutic procedures.

Anti-EAR2 / NR2F6 Antibody (N-Terminus) - Protein Information

Name NR2F6

Synonyms EAR2, ERBAL2

Function

Transcription factor predominantly involved in transcriptional repression. Binds to promoter/enhancer response elements that contain the imperfect 5'-AGGTCA-3' direct or inverted repeats with various spacings which are also recognized by other nuclear hormone receptors. Involved in modulation of hormonal responses. Represses transcriptional activity of the lutropin-choriogonadotropic hormone receptor/LHCGR gene, the renin/REN gene and the oxytocin-neurophysin/OXT gene. Represses the triiodothyronine- dependent and -independent transcriptional activity of the thyroid hormone receptor gene in a cell type-specific manner. The corepressing function towards thyroid hormone receptor beta/THRB involves at least in part the inhibition of THRB binding to triiodothyronine response elements (TREs) by NR2F6. Inhibits NFATC

Tel: 858.875.1900 Fax: 858.875.1999

transcription factor DNA binding and subsequently its transcriptional activity. Acts as transcriptional repressor of IL-17 expression in Th-17 differentiated CD4(+) T cells and may be involved in induction and/or maintenance of peripheral immunological tolerance and autoimmunity. Involved in development of forebrain circadian clock; is required early in the development of the locus coeruleus (LC).

Cellular Location

Nucleus {ECO:0000255|PROSITE-ProRule:PRU00407, ECO:0000269|PubMed:10644740, ECO:0000269|PubMed:18701084}

Tissue Location

Expressed in heart, placenta, liver, skeletal muscle, kidney and pancreas.

Anti-EAR2 / NR2F6 Antibody (N-Terminus) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- <u>Immunoprecipitation</u>
- Flow Cytomety
- Cell Culture
