

GST Antibody
Purified Mouse Monoclonal Antibody (Mab)
Catalog # AM1011b

Specification

GST Antibody - Product Information

Application	WB,E
Host	Mouse
Clonality	Monoclonal
Isotype	IgG1 k
Calculated MW	26000 Da

GST Antibody - Additional Information

Other Names
Glutathione S-transferase

Target/Specificity
Purified recombinant GST fusion protein was used to produced this monoclonal antibody.

Dilution
WB~~1:100~500
E~~Use at an assay dependent concentration.

Format
Purified monoclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein G column, followed by dialysis against PBS.

Storage
Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions
GST Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

GST Antibody - Background

Glutathione S-transferase (GST) was originally cloned from parasite *Schistosoma japonicum* and it is now a widely used protein fusion partner. Vectors containing GST Tag have been developed for both prokaryotic and eukaryotic systems. The GST fusion proteins are easily purified from cell lysates by affinity chromatography using Glutathione Sepharose 4B to elute out the GST fusion protein from the column with a denaturing form of glutathione. Using the Abgent anti-GST antibody provides a simple solution to detect the expression of GST fusion proteins in cells.
