

MS4A1/CD20 Antibody (C-term) (Ascites)

Mouse Monoclonal Antibody (Mab)
Catalog # AM1990a

Specification

MS4A1/CD20 Antibody (C-term) (Ascites) - Product Information

Application WB,E
Primary Accession P11836

Other Accession <u>NP_068769.2</u>, <u>NP_690605.1</u>

Reactivity
Host
Clonality
Monoclonal

Isotype IgG1
Calculated MW 33077
Antigen Region 266-294

MS4A1/CD20 Antibody (C-term) (Ascites) - Additional Information

Gene ID 931

Other Names

B-lymphocyte antigen CD20, B-lymphocyte surface antigen B1, Bp35, Leukocyte surface antigen Leu-16, Membrane-spanning 4-domains subfamily A member 1, CD20, MS4A1, CD20

Target/Specificity

This MS4A1/CD20 antibody is generated from mice immunized with a KLH conjugated synthetic peptide between 266-294 amino acids from the C-terminal region of human MS4A1/CD20.

Dilution

WB~~1:1000~3200

E~~Use at an assay dependent concentration.

Format

Mouse monoclonal antibody supplied in crude ascites with 0.09% (W/V) sodium azide.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

MS4A1/CD20 Antibody (C-term) (Ascites) is for research use only and not for use in diagnostic or therapeutic procedures.

MS4A1/CD20 Antibody (C-term) (Ascites) - Protein Information

Name MS4A1

Synonyms CD20

Tel: 858.875.1900 Fax: 858.875.1999

Function B-lymphocyte-specific membrane protein that plays a role in the regulation of cellular calcium influx necessary for the development, differentiation, and activation of B-lymphocytes (PubMed:12920111, PubMed:3925015, PubMed:7684739). Functions as a store-operated calcium (SOC) channel component promoting calcium influx after activation by the B-cell receptor/BCR (PubMed: 12920111, PubMed: 18474602, PubMed: 7684739).

Cellular Location

Cell membrane; Multi-pass membrane protein. Cell membrane; Lipid-anchor. Note=Constitutively associated with membrane rafts.

Tissue Location

Expressed on B-cells.

MS4A1/CD20 Antibody (C-term) (Ascites) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- Cell Culture

MS4A1/CD20 Antibody (C-term) (Ascites) - Images

MS4A1/CD20 Antibody (C-term) (Cat. #AM1990a) western blot analysis in Ramos cell line lysates (35µg/lane). This demonstrates the MS4A1/CD20 antibody detected the MS4A1/CD20 protein (arrow).

MS4A1/CD20 Antibody (C-term) (Ascites) - Background

This gene encodes a member of the membrane-spanning 4A gene family. Members of this nascent protein family are characterized by common structural features and similar intron/exon splice boundaries and display unique expression patterns among hematopoietic cells and nonlymphoid tissues. This gene encodes a B-lymphocyte surface molecule which plays a role in the development

and differentiation of B-cells into plasma cells. This family member is localized to 11q12, among a cluster of family members. Alternative splicing of this gene results in two transcript variants which encode the same protein.
