

GABA Transporter (GAT) 2 Antibody

Affinity purified rabbit polyclonal antibody Catalog # AN1129

Specification

GABA Transporter (GAT) 2 Antibody - Product Information

Application	IHC
Primary Accession	<u>P31646</u>
Reactivity	Rat
Predicted	Mouse
Host	Rabbit
Clonality	polyclonal
Calculated MW	82 KDa

GABA Transporter (GAT) 2 Antibody - Additional Information

Gene ID171163Gene NameSLC6A13Other NamesSodium- and chloride-dependent GABA transporter 2, GAT-2, Solute carrier family 6 member 13,
Slc6a13, Gabt2, Gat-2

Target/Specificity Synthetic peptide corresponding to amino acid residues from the C-terminal region conjugated to KLH.

Dilution IHC~~1:100~500

Format Prepared from rabbit serum by affinity purification.

Antibody Specificity Specific for the ~82k GAT-2 protein.

Storage Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions GABA Transporter (GAT) 2 Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

Shipping Blue Ice

GABA Transporter (GAT) 2 Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- <u>Western Blot</u>
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- <u>Cell Culture</u>

GABA Transporter (GAT) 2 Antibody - Background

Gamma-aminobutyric acid (GABA) is the primary inhibitory neurotransmitter in the central nervous system, causing a hyperpolarization of the membrane through the opening of a Cl– channel associated with the GABAA receptor (GABAA-R) subtype. GABA plasma membrane transporters (GATs) influence synaptic neurotransmission by high-affinity uptake and release of GABA. To date, four distinct GABA transporters have been identified: GAT-1, GAT-2, GAT-3, and BGT-1. GAT-2 is found in a wide range of neuronal and non-neuronal cells including dendrites and axon terminals as well as epithelial cells and cells forming the pia and arachnoid complex (Conti et al., 1999).
