

**Anti-CD71 Antibody**

**Our Anti-CD71 mouse monoclonal primary antibody from PhosphoSolutions is produced in-house. It detects**  
**Catalog # AN1328**

**Specification**

---

**Anti-CD71 Antibody - Product Information**

Application	WB
Primary Accession	<a href="#">P02786</a>
Host	Mouse
Clonality	Monoclonal
Isotype	IgG1
Calculated MW	84871

**Anti-CD71 Antibody - Additional Information**

Gene ID **7037**

**Other Names**

CD 71 antibody, CD71 antibody, CD71 antigen antibody, IMD46 antibody, OTTHUMP00000208523 antibody, OTTHUMP00000208524 antibody, OTTHUMP00000208525 antibody, p90 antibody, sTfR antibody, T9 antibody, TFR 1 antibody, TfR antibody, TfR1 antibody, TFR1\_HUMAN antibody, TFRC antibody, TR antibody, Transferrin receptor (p90 CD71) antibody, Transferrin receptor protein 1, serum form antibody, Trfr antibody

**Target/Specificity**

CD71, also known as the transferrin receptor (TfR1), is a transmembrane glycoprotein whose primary function is to mediate cellular uptake of iron from a plasma glycoprotein, transferrin. CD71 is a widely used marker for cell activation or proliferation of lymphocytes as transferrin receptor expression is undetectable in resting T and B lymphocytes, but increases significantly upon lymphocyte antigen activation (Galbraith, R.M., et al 1981). Rapidly proliferating cells and energy-requiring cells, like cancer cells, osteoclasts (Roodman, G.D., 2009), and activated lymphocytes (Wieland, E., et al, 2016) express high levels of CD71 due to increased iron demand. TfR1 is seen as an efficient drug delivery system for cancer patients as it can mediate extracellular transferrin conjugated molecules for treatment (Luria-Perez, R., et al, 2016).

**Dilution**

WB ~ 1:1000

**Format**

Protein G purified

**Storage**

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

**Precautions**

Anti-CD71 Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

**Shipping**

Blue Ice

### Anti-CD71 Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)
