

Anti-PERP Antibody
Catalog # AN2121**Specification**

Anti-PERP Antibody - Product Information

Primary Accession	Q96FX8
Host	Rabbit
Clonality	Rabbit Polyclonal
Isotype	IgG
Calculated MW	21386

Anti-PERP Antibody - Additional InformationGene ID **64065****Other Names**

p53 apoptosis effector related to PMP-22, Keratinocyte-associated protein 1, P53-induced protein
PIGPC1, Transmembrane protein THW

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

Anti-PERP Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

Shipping

Blue Ice

Anti-PERP Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)

Anti-PERP Antibody - Images**Anti-PERP Antibody - Background**

The p53 tumor suppressor activates either cell cycle arrest or apoptosis in response to cellular stress. A novel gene, PERP, is expressed in a p53-dependent manner and at high levels in apoptotic cells compared with G(1)-arrested cells. PERP induction is linked to p53-dependent apoptosis and is

directly activated by p53. These data suggest that PERP is a novel effector of p53-dependent apoptosis.
