## Anti-PERP Antibody

Catalog \# AN2121

## Specification

## Anti-PERP Antibody - Product Information

Primary Accession
Host
Clonality
Isotype
Calculated MW

Q96FX8
Rabbit
Rabbit Polyclonal
IgG
21386

## Anti-PERP Antibody - Additional Information

Gene ID
64065
Other Names
p53 apoptosis effector related to PMP-22, Keratinocyte-associated protein 1, P53-induced protein PIGPC1, Transmembrane protein THW

## Storage

Maintain refrigerated at $2-8^{\circ} \mathrm{C}$ for up to 6 months. For long term storage store at $-20^{\circ} \mathrm{C}$ in small aliquots to prevent freeze-thaw cycles.

## Precautions

Anti-PERP Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

Shipping
Blue Ice

## Anti-PERP Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- Cell Culture

## Anti-PERP Antibody - Images

## Anti-PERP Antibody - Background

The p53 tumor suppressor activates either cell cycle arrest or apoptosis in response to cellular stress. A novel gene, PERP, is expressed in a p53-dependent manner and at high levels in apoptotic cells compared with $\mathrm{G}(1)$-arrested cells. PERP induction is linked to p53-dependent apoptosis and is
directly activated by p53. These data suggest that PERP is a novel effector of p53-dependent apoptosis.
