

**Proteinase 3 Antibody**  
**Purified Mouse Monoclonal Antibody**  
**Catalog # AO1309a****Specification**

---

**Proteinase 3 Antibody - Product Information**

Application	WB, E
Primary Accession	<a href="#">P24158</a>
Reactivity	Human
Host	Mouse
Clonality	Monoclonal
Isotype	IgG2b
Calculated MW	28kDa KDa

**Description**

Proteinase 3, also known as PRTN3. PRTN3 is a serine protease enzyme expressed mainly in neutrophil granulocytes. Its exact role in the function of the neutrophil is unknown but in human neutrophils proteinase 3 contributes to the proteolytic generation of antimicrobial peptides. It is also the epitope of anti-neutrophil cytoplasmic antibodies (ANCA) of the cANCA (cytoplasmic subtype) class, a type of antibody frequently found in the disease Wegener's granulomatosis.

**Immunogen**

Purified recombinant fragment of human Proteinase 3 expressed in E. Coli.

**Formulation**

Antibody are purified by protein G affinity chromatography. <br />Liquid in PBS containing 50% glycerol and 0.03% sodium azide. <br />

**Proteinase 3 Antibody - Additional Information**

**Gene ID** 5657

**Other Names**

Myeloblastin, 3.4.21.76, AGP7, C-ANCA antigen, Leukocyte proteinase 3, PR-3, PR3, Neutrophil proteinase 4, NP-4, P29, Wegener autoantigen, PRTN3, MBN

**Dilution**

WB~~1/500 - 1/2000

E~~N/A

**Storage**

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

**Precautions**

Proteinase 3 Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

**Proteinase 3 Antibody - Protein Information**

**Name** PRTN3

**Synonyms** MBN

### Function

Serine protease that degrades elastin, fibronectin, laminin, vitronectin, and collagen types I, III, and IV (in vitro) (PubMed:<a href="http://www.uniprot.org/citations/2033050" target="\_blank">2033050</a>, PubMed:<a href="http://www.uniprot.org/citations/28240246" target="\_blank">28240246</a>, PubMed:<a href="http://www.uniprot.org/citations/3198760" target="\_blank">3198760</a>). By cleaving and activating receptor F2RL1/PAR-2, enhances endothelial cell barrier function and thus vascular integrity during neutrophil transendothelial migration (PubMed:<a href="http://www.uniprot.org/citations/23202369" target="\_blank">23202369</a>). Plays a role in neutrophil transendothelial migration, probably when associated with CD177 (PubMed:<a href="http://www.uniprot.org/citations/22266279" target="\_blank">22266279</a>). Triggers inflammatory processes in neutrophils by interacting with ADGRG3 upstream of F2RL1/PAR2 activation (PubMed:<a href="http://www.uniprot.org/citations/36302784" target="\_blank">36302784</a>).

### Cellular Location

Cytoplasmic granule. Secreted. Cell membrane; Peripheral membrane protein; Extracellular side. Membrane raft; Peripheral membrane protein; Extracellular side. Note=Localizes predominantly to azurophil granules (primary secretory granules) in neutrophils (PubMed:18462208, PubMed:2033050, PubMed:3198760, PubMed:7897245) Secreted upon neutrophil stimulation by TNF-alpha, lipopolysaccharide (LPS), fMLP and CXCL8/IL8 or during neutrophil transmigration (PubMed:22266279, PubMed:28240246). Following secretion tethered to the cell membrane by CD177 (PubMed:18462208, PubMed:22266279)

### Tissue Location

Expressed in polymorphonuclear leukocytes (at protein level) (PubMed:2033050, PubMed:3198760, PubMed:7897245) Expressed in neutrophils (at protein level) (PubMed:17244676, PubMed:18462208, PubMed:21193407, PubMed:22266279, PubMed:28240246) Expressed in differentiating neutrophils (PubMed:18462208)

## Proteinase 3 Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.
