

## **AFP Antibody**

Purified Mouse Monoclonal Antibody Catalog # AO1330a

### **Specification**

# **AFP Antibody - Product Information**

Application WB, E
Primary Accession P02771
Reactivity Human
Host Mouse
Clonality Monoclonal
Isotype IgG2b
Calculated MW 69kDa KDa

**Description** 

AFP (alpha-fetoprotein), a major plasma protein produced by the yolk sac and the liver during fetal life. Alpha-fetoprotein expression in adults is often associated with hepatoma or teratoma. However, hereditary persistance of alpha-fetoprotein may also be found in individuals with no obvious pathology. The protein is thought to be the fetal counterpart of serum albumin, and the alpha-fetoprotein and albumin genes are present in tandem in the same transcriptional orientation on chromosome 4. Alpha-fetoprotein is found in monomeric as well as dimeric and trimeric forms, and binds copper, nickel, fatty acids and bilirubin. The level of alpha-fetoprotein in amniotic fluid is used to measure renal loss of protein to screen for spina bifida and anencephaly.

### **Immunogen**

Purified recombinant fragment of human AFP expressed in E. Coli.

### **Formulation**

Antibody are purified by protein G affinity chromatography. <br/> <br/>Liquid in PBS containing 50% glycerol and 0.03% sodium azide. <br/>

# **AFP Antibody - Additional Information**

Gene ID 174

#### **Other Names**

Alpha-fetoprotein, Alpha-1-fetoprotein, Alpha-fetoglobulin, AFP, HPAFP

#### **Dilution**

WB~~1/500 - 1/2000

E~~N/A

## **Storage**

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

#### **Precautions**

AFP Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

## **AFP Antibody - Protein Information**

Name AFP

**Synonyms HPAFP** 

#### **Function**

Binds copper, nickel, and fatty acids as well as, and bilirubin less well than, serum albumin. Only a small percentage (less than 2%) of the human AFP shows estrogen-binding properties.

## **Cellular Location**

Secreted.

## **Tissue Location**

Plasma. Synthesized by the fetal liver and yolk sac

## **AFP Antibody - Protocols**

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- <u>Immunohistochemistry</u>
- <u>Immunofluorescence</u>
- Immunoprecipitation
- Flow Cytomety
- Cell Culture

## **AFP Antibody - Images**

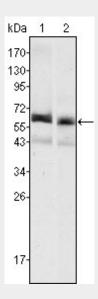

Figure 1: Western blot analysis using AFP mouse mAb against HepG2 (1) and SMMC-7721 (2) cell lysate.
