

CD24 Antibody
Purified Mouse Monoclonal Antibody
Catalog # AO1822a**Specification****CD24 Antibody - Product Information**

Application	WB, FC, E
Primary Accession	P25063
Reactivity	Human
Host	Mouse
Clonality	Monoclonal
Isotype	IgG1
Calculated MW	8kDa KDa

Description

This gene encodes a sialoglycoprotein that is expressed on mature granulocytes and in many B cells. The encoded protein is anchored via a glycosyl phosphatidylinositol (GPI) link to the cell surface.

Immunogen

Purified recombinant fragment of human CD24 (AA: 15-80) expressed in E. Coli.

Formulation

Purified antibody in PBS with 0.05% sodium azide

CD24 Antibody - Additional Information

Gene ID 100133941

Other Names

Signal transducer CD24, Small cell lung carcinoma cluster 4 antigen, CD24, CD24, CD24A

Dilution

WB~~1/500 - 1/2000

FC~~1/200 - 1/400

E~~1/10000

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

CD24 Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

CD24 Antibody - Protein Information

Name CD24

Synonyms CD24A

Function

May have a pivotal role in cell differentiation of different cell types. Signaling could be triggered by the binding of a lectin- like ligand to the CD24 carbohydrates, and transduced by the release of second messengers derived from the GPI-anchor. Modulates B-cell activation responses. Promotes AG-dependent proliferation of B-cells, and prevents their terminal differentiation into antibody-forming cells (PubMed:11313396). In association with SIGLEC10 may be involved in the selective suppression of the immune response to danger-associated molecular patterns (DAMPs) such as HMGB1, HSP70 and HSP90. Plays a role in the control of autoimmunity (By similarity).

Cellular Location

Cell membrane; Lipid-anchor, GPI-anchor.

Tissue Location

B-cells. Expressed in a number of B-cell lines including P32/ISH and Namalwa. Expressed in erythroleukemia cell and small cell lung carcinoma cell lines. Also expressed on the surface of T-cells.

CD24 Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.
