

RADIL Antibody (C-term)
Affinity Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AP10237b**Specification**

RADIL Antibody (C-term) - Product Information

Application	IHC-P, WB,E
Primary Accession	Q96JH8
Other Accession	NP_060529.4
Reactivity	Human
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG
Antigen Region	1044-1071

RADIL Antibody (C-term) - Additional Information**Gene ID** 55698**Other Names**

Ras-associating and dilute domain-containing protein, RADIL, KIAA1849

Target/Specificity

This RADIL antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 1044-1071 amino acids from the C-terminal region of human RADIL.

Dilution

IHC-P~~1:50~100

WB~~1:1000

E~~Use at an assay dependent concentration.

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

RADIL Antibody (C-term) is for research use only and not for use in diagnostic or therapeutic procedures.

RADIL Antibody (C-term) - Protein Information**Name** RADIL**Synonyms** KIAA1849

Function Downstream effector of Rap required for cell adhesion and migration of neural crest precursors during development.

RADIL Antibody (C-term) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)

RADIL Antibody (C-term) - Images

RADIL Antibody (C-term) (Cat. #AP10237b) western blot analysis in SK-BR-3 cell line lysates (15ug/lane). This demonstrates the RADIL antibody detected RADIL protein (arrow).

RADIL antibody (C-term) (Cat. #AP10237b) immunohistochemistry analysis in formalin fixed and paraffin embedded human pancreas tissue followed by peroxidase conjugation of the secondary antibody and DAB staining. This data demonstrates the use of the RADIL antibody (C-term) for immunohistochemistry. Clinical relevance has not been evaluated.
