

RN185 Antibody (Center)

Peptide Affinity Purified Rabbit Polyclonal Antibody (Pab)

Catalog # AP10818c

Specification

RN185 Antibody (Center) - Product Information

Application	WB, FC,E
Primary Accession	Q96GF1
Other Accession	Q568Y3 , Q91YT2 , Q6PC78 , Q5ZIR9 , NP_689480.2
Reactivity	Human, Mouse, Hamster
Predicted	Chicken, Zebrafish, Rat
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit Ig
Antigen Region	88-117

RN185 Antibody (Center) - Additional Information

Gene ID 91445

Other Names

E3 ubiquitin-protein ligase RNF185, 632-,
RING finger protein 185, RNF185

Target/Specificity

This RN185 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 88-117 amino acids from the Central region of human RN185.

Dilution

WB~~1:1000

FC~~1:10~50

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

RN185 Antibody (Center) is for research use only and not for use in diagnostic or therapeutic procedures.

RN185 Antibody (Center) (Cat. #AP10818c) western blot analysis in CHO cell line lysates (35ug/lane). This demonstrates the RN185 antibody detected the RN185 protein (arrow).

RN185 Antibody (Center) (Cat. #AP10818c) western blot analysis in mouse kidney tissue and K562 cell line lysates (35ug/lane). This demonstrates the RN185 antibody detected the RN185 protein (arrow).

RN185 Antibody (Center) - Protein Information

Name RNF185

Function

E3 ubiquitin-protein ligase that regulates selective mitochondrial autophagy by mediating 'Lys-63'-linked polyubiquitination of BNIP1 (PubMed:21931693). Acts in the endoplasmic reticulum (ER)- associated degradation (ERAD) pathway, which targets misfolded proteins that accumulate in the endoplasmic reticulum (ER) for ubiquitination and subsequent proteasome-mediated degradation (PubMed:27485036). Protects cells from ER stress-induced apoptosis (PubMed:27485036). Responsible for the cotranslational ubiquitination and degradation of CFTR in the ERAD pathway (PubMed:24019521). Preferentially associates with the E2 enzymes UBE2J1 and UBE2J2 (PubMed:24019521).

Cellular Location

Mitochondrion outer membrane; Multi-pass membrane protein. Endoplasmic reticulum membrane; Multi-pass membrane protein

Tissue Location

Ubiquitously expressed.

RN185 Antibody (Center) - Protocols
