

**PMAT(Slc29a4) Antibody (N-term)**  
**Purified Rabbit Polyclonal Antibody (Pab)**  
**Catalog # AP1087a**

**Specification**

---

**PMAT(Slc29a4) Antibody (N-term) - Product Information**

Application	IHC-P, WB,E
Primary Accession	<a href="#">Q8R139</a>
Other Accession	<a href="#">Q7RTT9</a>
Reactivity	Human, Mouse
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG
Antigen Region	39-69

**PMAT(Slc29a4) Antibody (N-term) - Additional Information**

**Gene ID** 243328

**Other Names**

Equilibrative nucleoside transporter 4, Solute carrier family 29 member 4, Slc29a4, Ent4

**Target/Specificity**

This PMAT(Slc29a4) antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 39-69 amino acids from the N-terminal region of mouse PMAT(Slc29a4).

**Dilution**

IHC-P~~1:10~50

WB~~1:1000

E~~Use at an assay dependent concentration.

**Format**

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein G column, followed by dialysis against PBS.

**Storage**

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

**Precautions**

PMAT(Slc29a4) Antibody (N-term) is for research use only and not for use in diagnostic or therapeutic procedures.

**PMAT(Slc29a4) Antibody (N-term) - Protein Information**

**Name** Slc29a4 {ECO:0000312|MGI:MGI:2385330}

**Function** Electrogenic voltage-dependent transporter that mediates the transport of a variety of

endogenous bioactive amines, cationic xenobiotics and drugs (PubMed:[16873718](#), PubMed:[23255610](#)). Utilizes the physiologic inside-negative membrane potential as a driving force to facilitate cellular uptake of organic cations (By similarity). Functions as a Na(+)- and Cl(-)-independent bidirectional transporter (By similarity). Substrate transport is pH-dependent and enhanced under acidic condition, which is most likely the result of allosteric changes in the transporter structure (PubMed:[16873718](#)). Implicated in monoamine neurotransmitters uptake such as serotonin, dopamine, adrenaline/epinephrine, noradrenaline/norepinephrine, histamine and tyramine, thereby supporting a role in homeostatic regulation of aminergic neurotransmission in the central nervous system (PubMed:[23255610](#)). Also responsible for the uptake of bioactive amines and drugs through the blood-cerebrospinal fluid (CSF) barrier, from the CSF into choroid plexus epithelial cells, thereby playing a significant role in the clearance of cationic neurotoxins, xenobiotics and metabolic waste in the brain (PubMed:[23255610](#)). Involved in bidirectional transport of the purine nucleoside adenosine and plays a role in the regulation of extracellular adenosine concentrations in cardiac tissues, in particular during ischemia (PubMed:[16873718](#)). May be involved in organic cation uptake from the tubular lumen into renal tubular cells, thereby contributing to organic cation reabsorption in the kidney (PubMed:[23255610](#)). Also transports adenine and guanidine (PubMed:[16873718](#)).

#### **Cellular Location**

Cell membrane {ECO:0000250|UniProtKB:Q7RTT9}; Multi-pass membrane protein. Apical cell membrane; Multi-pass membrane protein. Note=Localized to the apical blood-cerebrospinal fluid(CSF)-facing membrane of the choroid plexus epithelium

#### **Tissue Location**

Expressed in heart (PubMed:16873718). Expressed in choroid plexus (PubMed:23255610).

### **PMAT(Slc29a4) Antibody (N-term) - Protocols**

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)

### **PMAT(Slc29a4) Antibody (N-term) - Images**

Western blot analysis of anti-PMAT(Slc29a4) Antibody (N-term) (Cat. #AP1087a) in HepG2 cell line lysates (35ug/lane). PMAT(arrow) was detected using the purified Pab.

Formalin-fixed and paraffin-embedded human breast carcinoma tissue reacted with PMAT(Slc29a4) Antibody (N-term) (Cat.#AP1087a), which was peroxidase-conjugated to the secondary antibody, followed by DAB staining. This data demonstrates the use of this antibody for immunohistochemistry; clinical relevance has not been evaluated.

#### **PMAT(Slc29a4) Antibody (N-term) - Background**

PMAT(Slc29a4) is a member of the SLC29 family. It is a plasma membrane protein with 11 transmembrane helices. This protein catalyzes the reuptake of monoamines into presynaptic neurons, thus determining the intensity and duration of monoamine neural signaling. It has been shown to transport several compounds, including serotonin, dopamine, and the neurotoxin 1-methyl-4-phenylpyridinium.
