

THEMIS Antibody (C-term)
Affinity Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AP11184b**Specification**

THEMIS Antibody (C-term) - Product Information

Application	WB, IHC-P,E
Primary Accession	Q8N1K5
Other Accession	NP_001010923.1 , NP_001158157.1
Reactivity	Mouse
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG
Calculated MW	73452
Antigen Region	559-588

THEMIS Antibody (C-term) - Additional Information**Gene ID** 387357**Other Names**

Protein THEMIS, Thymocyte-expressed molecule involved in selection, THEMIS, C6orf190, C6orf207

Target/Specificity

This THEMIS antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 559-588 amino acids from the C-terminal region of human THEMIS.

Dilution

WB~~1:1000

IHC-P~~1:50~100

E~~Use at an assay dependent concentration.

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

THEMIS Antibody (C-term) is for research use only and not for use in diagnostic or therapeutic procedures.

THEMIS Antibody (C-term) - Protein Information**Name** THEMIS

Synonyms C6orf190, C6orf207

Function Plays a central role in late thymocyte development by controlling both positive and negative T-cell selection. Required to sustain and/or integrate signals required for proper lineage commitment and maturation of T-cells. Regulates T-cell development through T-cell antigen receptor (TCR) signaling and in particular through the regulation of calcium influx and phosphorylation of Erk.

Cellular Location

Cytoplasm {ECO:0000250|UniProtKB:Q8BGW0}. Nucleus {ECO:0000250|UniProtKB:Q8BGW0}

THEMIS Antibody (C-term) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)

THEMIS Antibody (C-term) - Images

THEMIS Antibody (C-term) (Cat. #AP11184b) western blot analysis in mouse liver tissue lysates (35ug/lane). This demonstrates the THEMIS antibody detected the THEMIS protein (arrow).

THEMIS Antibody (C-term) (Cat. #AP11184b) immunohistochemistry analysis in formalin fixed and paraffin embedded human thymoma followed by peroxidase conjugation of the secondary antibody and DAB staining. This data demonstrates the use of THEMIS Antibody (C-term) for immunohistochemistry. Clinical relevance has not been evaluated.

THEMIS Antibody (C-term) - Background

This gene encodes a protein that plays a regulatory role in both positive and negative T-cell selection during late thymocyte development. The protein functions through T-cell antigen receptor signaling, and is necessary for proper lineage commitment and maturation of T-cells. Alternative splicing results in multiple transcript variants.
