

OVOS Antibody (N-term)
Affinity Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AP11623a**Specification**

OVOS Antibody (N-term) - Product Information

Application	WB, IHC-P,E
Primary Accession	Q6IE36
Other Accession	Q6IE37
Reactivity	Human
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG
Antigen Region	99-128

OVOS Antibody (N-term) - Additional Information**Other Names**

Ovostatin homolog 2, OVOS2

Target/Specificity

This OVOS antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 99-128 amino acids from the N-terminal region of human OVOS.

Dilution

WB~~1:1000

IHC-P~~1:10~50

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

OVOS Antibody (N-term) is for research use only and not for use in diagnostic or therapeutic procedures.

OVOS Antibody (N-term) - Protein Information**OVOS Antibody (N-term) - Protocols**

Provided below are standard protocols that you may find useful for product applications.

OVOS Antibody (N-term) - Images

OVOS Antibody (N-term) (Cat. #AP11623a) western blot analysis in K562 cell line lysates (35ug/lane). This demonstrates the OVOS antibody detected the OVOS protein (arrow).

OVOS Antibody (N-term) (Cat. #AP11623aa) immunohistochemistry analysis in formalin fixed and paraffin embedded human testis tissue followed by peroxidase conjugation of the secondary antibody and DAB staining. This data demonstrates the use of OVOS Antibody (N-term) for immunohistochemistry. Clinical relevance has not been evaluated.

OVOS Antibody (N-term) - Background

OVOS is able to inhibit all four classes of proteinases by a unique 'trapping' mechanism (By similarity).
