Transcription factor jun-B, JUNB

Target/Specificity

This JUNB antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 249-276 amino acids from the Central region of human JUNB.

Dilution

WB~~1:1000

E~~Use at an assay dependent concentration.

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

JUNB Antibody (Center) is for research use only and not for use in diagnostic or therapeutic procedures.

JUNB Antibody (Center) - Protein Information**Name** JUNB

Function Transcription factor involved in regulating gene activity following the primary growth factor response. Binds to the DNA sequence 5'-TGA[GC]TCA-3'. Heterodimerizes with proteins of the FOS family to form an AP-1 transcription complex, thereby enhancing its DNA binding activity to an AP-1 consensus sequence and its transcriptional activity (By similarity).

Cellular Location

Nucleus.
