

CNOT8 Antibody (N-term)
Affinity Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AP12889a**Specification**

CNOT8 Antibody (N-term) - Product Information

| | |
|-------------------|--|
| Application | WB,E |
| Primary Accession | O9UFF9 |
| Other Accession | O9D8X5 , NP_004770.4 |
| Reactivity | Human |
| Predicted | Mouse |
| Host | Rabbit |
| Clonality | Polyclonal |
| Isotype | Rabbit IgG |
| Calculated MW | 33540 |
| Antigen Region | 33-60 |

CNOT8 Antibody (N-term) - Additional Information**Gene ID** 9337**Other Names**

CCR4-NOT transcription complex subunit 8, CAF1-like protein, CALIFp, CAF2, CCR4-associated factor 8, Caf1b, CNOT8, CALIF, POP2

Target/Specificity

This CNOT8 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 33-60 amino acids from the N-terminal region of human CNOT8.

Dilution

WB~~1:1000

E~~Use at an assay dependent concentration.

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

CNOT8 Antibody (N-term) is for research use only and not for use in diagnostic or therapeutic procedures.

CNOT8 Antibody (N-term) - Protein Information**Name** CNOT8

Synonyms CALIF, POP2

Function Has 3'-5' poly(A) exoribonuclease activity for synthetic poly(A) RNA substrate. Its function seems to be partially redundant with that of CNOT7. Catalytic component of the CCR4-NOT complex which is linked to various cellular processes including bulk mRNA degradation, miRNA-mediated repression, translational repression during translational initiation and general transcription regulation. During miRNA-mediated repression the complex also seems to act as translational repressor during translational initiation. Additional complex functions may be a consequence of its influence on mRNA expression. Associates with members of the BTG family such as TOB1 and BTG2 and is required for their anti-proliferative activity.

Cellular Location

Cytoplasm. Nucleus

CNOT8 Antibody (N-term) - Protocols

Provided below are standard protocols that you may find useful for product applications.

CNOT8 Antibody (N-term) - Images

Western blot analysis of CNOT8 (arrow) using rabbit polyclonal CNOT8 Antibody (N-term) (Cat. #AP12889a). 293 cell lysates (2 ug/lane) either nontransfected (Lane 1) or transiently transfected (Lane 2) with the CNOT8 gene.

CNOT8 Antibody (N-term) - Background

Ubiquitous transcription factor required for a diverse set of processes. The CCR4-NOT complex functions as general transcription regulation complex.
