

## HRH2 Antibody (Center)

Peptide Affinity Purified Rabbit Polyclonal Antibody (Pab)

Catalog # AP14970c

### Specification

#### HRH2 Antibody (Center) - Product Information

Application	WB,E
Primary Accession	<a href="#">P25021</a>
Other Accession	<a href="#">NP_071640.1</a>
Reactivity	Human
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit Ig
Calculated MW	40098
Antigen Region	189-218

#### HRH2 Antibody (Center) - Additional Information

Gene ID 3274

#### Other Names

Histamine H2 receptor, H2R, HH2R, Gastric receptor I, HRH2

#### Target/Specificity

This HRH2 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 189-218 amino acids from the Central region of human HRH2.

#### Dilution

WB~~1:1000

#### Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

#### Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

#### Precautions

HRH2 Antibody (Center) is for research use only and not for use in diagnostic or therapeutic procedures.

#### HRH2 Antibody (Center) - Protein Information

Name HRH2

#### Function

The H2 subclass of histamine receptors

#### HRH2 Antibody (Center) - Background

Histamine is a ubiquitous messenger molecule released from mast cells, enterochromaffin-like cells, and neurons. Its various actions are mediated by histamine receptors H1, H2, H3 and H4. Histamine receptor H2 belongs to the family 1 of G protein-coupled receptors. It is an integral membrane protein and stimulates gastric acid secretion. It also regulates gastrointestinal motility and intestinal secretion and is thought to be involved in regulating cell growth and differentiation. Alternatively spliced transcript variants encoding different isoforms have been found for this gene.

#### HRH2 Antibody (Center) - References

Bailey, S.D., et al. Diabetes Care 33(10):2250-2253(2010) Ruano, G., et al. Pharmacogenomics 11(7):959-971(2010) Davila, S., et al. Genes Immun. 11(3):232-238(2010) Szukiewicz, D., et al. Inflamm. Res. 59 SUPPL 2, S205-S207 (2010) : Talmud, P.J., et al. Am. J. Hum. Genet. 85(5):628-642(2009)

mediates gastric acid secretion. Also appears to regulate gastrointestinal motility and intestinal secretion. Possible role in regulating cell growth and differentiation. The activity of this receptor is mediated by G proteins which activate adenylyl cyclase and, through a separate G protein-dependent mechanism, the phosphoinositide/protein kinase (PKC) signaling pathway (By similarity).

#### **Cellular Location**

Cell membrane; Multi-pass membrane protein.

### **HRH2 Antibody (Center) - Protocols**

Provided below are standard protocols that you may find useful for product applications.
