

#### HTR7 Antibody (C-term)

Affinity Purified Rabbit Polyclonal Antibody (Pab) Catalog # AP16398b

#### Specification

# HTR7 Antibody (C-term) - Product Information

Application Primary Accession Other Accession Reactivity Host Clonality Isotype Calculated MW Antigen Region WB,E <u>P34969</u> <u>NP\_062873.1</u>, <u>NP\_000863.1</u> Human Rabbit Polyclonal Rabbit IgG 53555 405-433

## HTR7 Antibody (C-term) - Additional Information

Gene ID 3363

Other Names 5-hydroxytryptamine receptor 7, 5-HT-7, 5-HT7, 5-HT-X, Serotonin receptor 7, HTR7

Target/Specificity

This HTR7 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 405-433 amino acids from the C-terminal region of human HTR7.

Dilution WB~~1:1000 E~~Use at an assay dependent concentration.

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

HTR7 Antibody (C-term) is for research use only and not for use in diagnostic or therapeutic procedures.

## HTR7 Antibody (C-term) - Protein Information

Name HTR7 {ECO:0000303|Ref.3, ECO:0000312|HGNC:HGNC:5302}

Function G-protein coupled receptor for 5-hydroxytryptamine (serotonin), a biogenic hormone

that functions as a neurotransmitter, a hormone and a mitogen (PubMed:<u>35714614</u>, PubMed:<u>8226867</u>). Ligand binding causes a conformation change that triggers signaling via guanine nucleotide-binding proteins (G proteins) and modulates the activity of downstream effectors (PubMed:<u>35714614</u>, PubMed:<u>8226867</u>). HTR7 is coupled to G(s) G alpha proteins and mediates activation of adenylate cyclase activity (PubMed:<u>35714614</u>).

**Cellular Location** Cell membrane; Multi-pass membrane protein

**Tissue Location** [Isoform A]: Predominant isoform in spleen, caudate and hippocampus. [Isoform D]: Minor isoform in terms of expression.

## HTR7 Antibody (C-term) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- <u>Western Blot</u>
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- <u>Cell Culture</u>
- HTR7 Antibody (C-term) Images

HTR7 Antibody (C-term) (Cat. #AP16398b) western blot analysis in MDA-MB231 cell line lysates (35ug/lane).This demonstrates the HTR7 antibody detected the HTR7 protein (arrow).

## HTR7 Antibody (C-term) - Background

The neurotransmitter, serotonin, is thought to play a role in various cognitive and behavioral functions. The serotonin receptor encoded by this gene belongs to the superfamily of G protein-coupled receptors and the gene is a candidate locus for involvement in autistic disorder and other neuropsychiatric disorders. Three splice variants have been identified which encode proteins that differ in the length of their carboxy terminal ends.
